SEYMOUR DAILY REPUBLICAN.

VOLUME XXIX NO. 207 SEYMOUR, INDIANA, TUESDAY, AUGUST 9, 1910. PRICE TWO CENTS

MAYOR GAYNOR OF NEW YORK IS SHOT

Gallagher, Would-be Assassin, Said He Had Grievance.—Fired Three Times.

WOUND MAY NOT PROVE FATAL

Shooting Occurred on Board of Ocean Liner.—Gaynor Planned Trip for Benefit of Health.

(Special to the Republican.)

William J. Gaynor, mayor of New York, was shot and possibly fatally wounded this morning after going aboard the steamship Kaiser Wilhelm der Grosse. The man who shot Gaynor was immediately arrested and at first refused to give his name. Later he said he was Jules James Gallagher. The assassin fired three shots, only one of which took effect. The bullet entered Maynor Gaynor's neck. The mayor was removed to St. Mary's hospital and taken immediately to the operating room. The physicians at first did not believe his wound would be serious but at 11:30 his condition was not so favorable. The doctors were having some trouble controlling the hemorrhage. Blood from the wound finds its way into the throat and chokes the sufferer from time to time. The bullet was located about an inch below the right ear.

Mayor Gaynor and the city officials were standing in a group, about to have their photograph taken, when the shooting began. Blood spurted from the would in the neck as the mayor fell to the deck. Officer Fitzgeering, one of the guards of the North German Lloyd line, was standing near at the time. He had in his hand a small police club, with which he hit the assaiilant a blow on the head, felling him to the deck.

Meantime there was intense excitement on the deck of the steamer. The mayor's secretary lifted the stricken executive to his feet and with the assistance of others carried him to a state room. The revolver used by the assassin was found to contain four empty shells. As Mayor Gaynor was being borne by his friends he remarked, simply: "Say good-by to the people."

Gallagher, the mayor's assailant, was taken before Recorder McGovern. He displayed little emotion.

"He deprived me of my bread and butter," said the discharged dock employe. "I didn't want porterhouse steak," he added.

Recorder McGovern held the prisoner without bail. Gallagher was appointed a watchman in the New York city dock department April 7, 1903. He was discharged July 19, 1910, after having been found guilty of neglect of duty and misconduct.

Ladies and Gentlemen.

Ring up No. 92 for your clothes to be cleaned, pressed, etc. Also for your laundry work to be done. A. Ssiarra, the tailor and haberdasher, 14 East Second street.

N. B.—Fall and winter styles are now ready for your inspection.

BORN.

A son was born today to Mr. and Mrs. Raleigh Peek, of Hayden. Marion Peek, as grandfather, is receiving the congratulations of his friends.

MAY ARREST BURRELL.

Banker is Said to be in Oklahoma and May be Returned to Brownstown.

In a dispatch dated from this city to the Indianapolis News by their staff correspondent, W. H. Blodgett, it is stated that Hugh Burrell, ex-president of the People's State Bank at Brownstown, may be returned to this county for trial. It says:

"Burrell has been apprehended in Muskogee, Okla., and it is said that he has been living a glad, free life there. It is said, too, that it was not long ago that he slipped into Indianapolis for a few days and then went back to his southwestern haven. The sheriff of Jackson county went to Oklahoma to get Mr. Burrell, but he was not successful Another effort will be made to arrest him, and private detectives at Indianapolis are watching to pick him up if he comes back to that city. It is believed that it is only a question of time until the fugitive bank president will be brought back to face the charges against him."

MISSING BOY.

From Boston Supposed to Have Come to Seymour.

Chief of police J. T. Abell has received a message from the police department of Boston that a fifteen-year-old boy by the name of Joseph E. Hubbard had left his home in that city on July 6, and had not been heard from. A few days ago Mr. Abell received a letter from the boy's father stating that it was supposed thaat the youth had come to Seymour and requested Mr. Abell to locate him.

The letter stated that the boy was about 5 feet, 5 inches in height, light complexioned and when he left home wore a knickerbocker suit. He was very fond of horses and it was believed that he would seek employment on farms or ranches. For several years he has had a strong desire to go west and evangelize the Indian tribes, and it is thought that he will endeavor to secure work near the Indian reservation.

Chief Abell has been unable to find the boy here and believes that if he was here he did not remain long but continued his journey westward. A strange boy at the B. & O. S-W. station this morning filled the description of the missing lad in several particulars, but an investigation showed he was not the Hubbard boy.

Chief Abell has also received a letter from Covington, Ky., that Frank Methoen, age 16, was missing from home and was supposed to have come to Seymour on a "blind baggage" several days ago. The railroad employes stated that they had not noticed a boy of the description given riding on any of the trains entering this city.

Many Lives Lost.

Many lives have been lost by failing to heed the danger signals of Liver-Kidney trouble. If you have the slightest symptoms, don't delay treatment, it may soon be too late. Kidney trouble won't wear away but will readily yield to the wonderful curative power of Eureka Kidney-Liver Medicine, the unfailing remedy, try it now. H. C. WHITMER MEDICINE CO., and all druggists. a10d

Will Move to Seymour.

M. F .Bottorff, of Hamilton township, has rented the Morrison cottage on North Chestnut street and is preparing to move to Seymour for future residence.

It is reported that a robbery occurred on East Brown street last night.

ANNUAL REUNION AND HOME COMING

At Brownstown August 17, 18 and 19. Large Crowds are Expected to be There.

G. A. R. OFFICERS WILL SPEAK

Program for the Three Days.—Many Special Attractions and Shows are Coming.

Great preparations are being made for the fifteenth annual reunion and home coming at Brownstown August 17, 18 and 19. These events in the past have always attracted large crowds and it is expected that this year will prove no exception.

Department commander A. P. Asbury, Col. J. R. Fesler and other prominent Grand Army men will speak during the reunion.

A Sunday School contest has been arranged for Wednesday afternoon the 17th, the school with the largest delegation will receive $5.00, second largest $2.00, and each other school with twenty-five delegates will receive $1.00.

The schools will be expected to sing if called upon.

The annual bean dinner for the old soldiers will be given on Thursday. Friday night there will be a display of fire works.

Numerous special attractions are announced, including ascensions by a lady aeronaut, mid-air trapeze performances, music by ladies' drum corps, and Hummer Band. In addition there will be sack races, wheelbarrow races, foot races and other similar contests, besides the usual merry-go-round, vaudeville, minstrel and other shows.

WENDLING IN LOUISVILLE.

Man Wanted For Child Murder Taken Through Seymour.

Joseph Wendling, who is wanted at Louisville in connection with the murder of the Alma Kellner, the eight year old daughter of Fred Kellner, passed through the city Monday evening in company with three officers. It was not known at Louisville when the prisoner would be returned, and the morning papers stated that Wendling had not yet arrived. It is supposed there that he is still in St. Louis.

When he passed through Seymour he did not seem to be nervous and rather enjoyed the notoriety. Only a few passengers on the train were informed of the presence of the prisoner.

Board Meeting.

The officials and board of directors of the Christian churches of the county held a meeting at Brownstown today to arrange for the dedication of the new Medora church in September and to arrange the program and fix the date and place for the county meeting. The latter will probably be held the second Saturday and Sunday in September. Elder Harley Jackson of Seymour, and James Marsh, of Redding township, went over this morning to attend the meeting.

Berdon's Barber Shop, S. Chestnut.

FIREMAN HURT IN FALL FROM TENDER

Robert Peek Seriously Injured While Attempting to Draw Heavy Water Crane.

UNCONSCIOUS SEVERAL HOURS

Was Badly Injured in Wreck When Engine Overturned About Two Years Ago.

Robert Peek, a fireman on the B. & O. S-W., fell from the tender of passenger train No. 7 this morning just after it had stopped at the passenger station, and was seriously injured. He is suffering from concussion of the brain and it is believed that he is hurt internally.

Peek was standing upon the coal car and was attempting to draw the water crane towards the engine with a long hook when it slipped and he fell backward off the car, striking the brick platform on his head and shoulders. Engineer Herbert Durham was standing at the side of the engine and was the first to reach the injured man. The road physician was immediately called and ordered that Peek be carried to Ahlert's bath house across the tracks where an examination of his injuries was made. It was found that he was severely bruised about the neck and shoulders and suffering from concussion of the brain. He was also injured internally, but just how serious could not be ascertained at this time. He was unconscious for several hours. About noon he was removed to his home on North Vine street in Hustedt's ambulance and was resting as well as could be expected this afternoon.

J. H. Monroe was near the round house when the accident occurred and was called to take the place of the injured fireman on the engine.

Mr. Peek has had a very unfortunate career in the railroad service and has been seriously injured a number of times. About two years ago he was injured in the wreck when the engine overturned near Ft. Ritner. At that time both legs were broken and he was hurt internally and it was feared for some time that his injuries would be permanent, but he recovered and about a year ago again took his position on the road. The engineer who was with Peek in the wreck was killed.

The water crane is very difficult to turn and Peek was pulling on the hook with great force when it slipped. He was standing so near the side of the tender that he had no opportunity to catch himself before he fell to the platform.

Robbed.

Thomas Cross, a laborer at Speeds' cement mill, living at Speeds, was relieved of $110 Monday afternoon by thieves in his home while he was at work at the mill. The robbers ransacked the house while his aged mother was absent. There is no clew. Bloodhounds were summoned, but have not arrived.

T. Roeger Carter has been awarded the contract to paper four school houses in Redding township. The four are : Conlogue, Fox's, Reddington and Walnut Grove.

IN SERVICE FIFTY YEARS.

McGregor's Work Began When Wood Was Used for Fuel.

James McGregor, an engineer on the Louisville division of the Pennsylvania, who has been in the service of the company more than fifty years, is expected to be retired, on pension, the last of the next month, as he will be seventy years old September 11. He makes his home in Jeffersonville, but "runs" into Seymour.

He entered the service of the old Jeffersonville railroad in July, 1859, and worked on a construction train. During the civil war, however, he joined the Forty-ninth Indiana and served three years. At the end of that period he entered the service of the old J. M. & I. and after working on a construction train for a while, became a fireman and later an engineer. For about forty years he has been an engineer, and for the last twenty-five years of that period has been in the passenger service. In his early experience the engines were wood burners, but when asked if there was not considerable trouble in keeping up steam, he said with a smile, "Oh, no; that is if you understood how." During his early experience he assisted in putting up the first telegraph lines for the road. Although about ready to retire, he is in good health. During the last two years he has lost only four days and he has an excellent record as an engineer.

CONDITION OF PROPERTY.

Inspectors Appointed to Look After General Neatness of Depots.

In addition to the equipment extension policy introduced by President Willard, of the Baltimore & Ohio, is one of a different progressive spirit. A number of inspectors have been appointed who report to the operating vice-president, George L. Potter, as to the general neatness of station properties and the general appearance of tracks. Agents have instructions to keep their buildings in good order, and these are put in a condition of attractiveness. That this may be extended to the right of way, trackmen and others are required to burn waste paper thrown from passenger trains and porters of trains to collect such material constantly and deposit in receptacles provided for that purpose.

MARRIED.

Cyrus Rink and Miss Minnie Crowe were married at 3 o'clock Sunday afternoon at the home of Rev. J. J. Williams in Medora. Only a few relatives and friends were present at the wedding. The bride is the daughter of Mr. and Mrs. Theodore Crowe, of Vallonia, while the groom is from Medora. They are well known and highly respected young people.

Attends Ordination.

Rev. F. M. Huckleberry went to Wirt this morning to attend the ordination service of Fred Young, who is to be set apart for the ministry. The examination is to be conducted Young is a native of Ripley county and a student of Franklin college.

Locates at Rensslaer.

Dr. J. F. Applewhite of Brownstown, a brother of Dr. Applewhite, of Seymour, left this morning for Renssalaer where he has formed a partnership for the practice of dentistry. His partner has been engaged in the practice there for twenty-five years. Dr. Applewhite passed the Indiana dental examination last spring. He spent one year previous to that itme practicing in Arizona.

PLANS MADE FOR UNION S. S. PICNIC

Representatives of Six Sunday Schools Meet Monday Evening and Appoint Committees.

ENTERTAINMENT IS PROVIDED

Superintendents of the Schools Were Named as Members of Arrangement Committee.

Much interest is being manifested in the union picnic which is being arranged by the officers of the Sunday schools of the Presbyterian, Methodist Baptist, Christian, German Methodist and St. Paul's churches. Twenty representatives of the six schools met at the Presbyterian church Monday evening and made the preliminary arrangements for the picnic. It is the intention of the committee to have the picnic on Monday, September 5th at the city park, providing the council will grant the schools the privilege of using the park.

At the meeting Monday evening, J. E. Graham of the Presbyterian Sunday school was selected as chairman of the general organization, George A. Winkenhofer of the German Methodist Sunday School was elected Secretary, and W. G. Geile, of the St. Paul school, treasurer. The superintendents of the various schools were named as the members of the executive committee, and they will have charge of the general arrangements for the picnic. The superintendents are: Mrs. C. W. Frey, Methodist; M. H. Hodapp, German Methodist; H. R. Booch, St. Paul; Jay C. Smith, Baptist; A. Sciarra, Christian; and J. E. Graham, Presbyterian. Jay C. Smith was chosen as chairman of the arrangement committee.

The advertisement committee which was appointed is composed of Charles H. Cordes, of the St. Paul; Robert Blair, of the Baptist and W. H. Burkley, of the German Methodist.

It is the intention of the arrangement committee to have a series of games and other amusements for the pleasure of the scholars. Several contests will probably be arranged between the different schools in which a number of the scholars can participate.

The plan of the union picnic was suggested some time ago, but no definite arrangements were made until this time. It was the intention at first to have the outing outside of Seymour, and probably charter some interurban or steam cars for the convenience of those attending. A short time ago it was suggested that the first union picnic be held at the city park and the plan was readily accepted by the superintendents. It is believed that the outing will prove of great benefit to the schools and serve to stimulate an interest among the children of the city in Sunday School work.

The committees appointed Monday night will meet at the city library this evening when more definite plans will be discussed.

Ed Eldridge went to Medora Monday where he completed several contracts for placing lightning rods on a number of large barns in that vicinity.

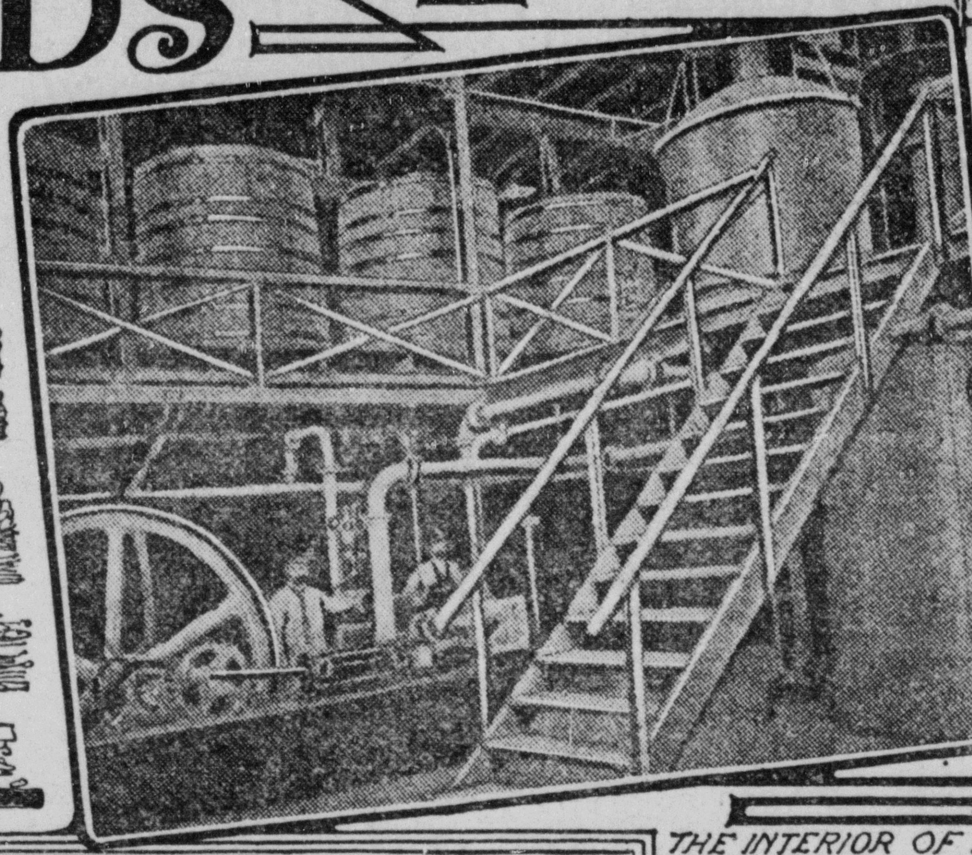
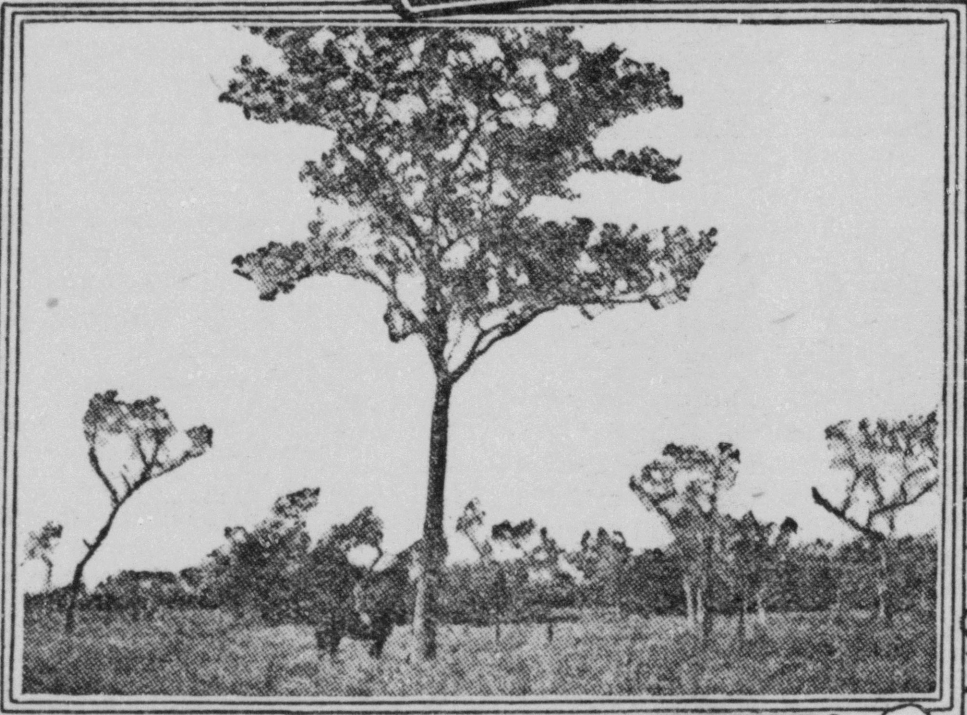
HARDEST OF ALL WOODS

TWO of the greatest industries in the world are railway building and the preparation of hides and skins into leather. For the former the sleepers on which the rails are laid are essential and costly factors; for the latter nothing can take the place of some vegetable extract which is the tanning substance of the trade. Sleepers can be made of glass and metal, but these do not give the satisfaction of those made of wood. The oak and the hemlock have for ages supplied tannin by which leather is cured; in fact, the very word tann implies by its derivation its relation to the oak, by which name the tree was called in old Breton language. Railway sleepers have been made from the oak, but the expense grows higher year by year. No wonder, therefore, that the earth is scoured for trees to furnish either the one or the other or both of the substances, and no wonder also that manufacturers and builders hailed with delight the announcement a few years ago of the availability for both purposes of the South American tree called "Quebracho."

Quebracho is a contraction of the colloquial Spanish and Portuguese term quiebra-hacha, originally applied to many trees in Latin America. It means "ax breaker," and the character is implied in this meaning. The wood is hard, fine grained, and tough and had been used by the natives for ages in their primitive construction work. Of recent years, however, quebracho is restricted in the arts and industries to a particular tree found only in South America, and even here only within broad limts of the drainage basin of the River Parana. In Cuba there is a "quebracho," so-called locally, which is a member of the Copaiba family. In Chile a quebracho is rather of the Cassia family, and probably in other parts of Latin America the name is indiscriminately given to any hard wood that has tested the metal of the native's ax. No such indefinite use of the word, however, can be permitted today, because the tree of the South American Chaco has become so commercially important that it must be understood to signify only that one tree and nothing else.



THE INTERIOR OF A QUEBRACHO EXTRACT FACTORY



A QUEBRACHO TREE IN "THE CHACO"

A SAWMILL BETWEEN "THE CHACO" AND CIVILIZATION

THE BARK OF THE QUEBRACHO TREE

The genuine quebracho tree is found in Brazil, Paraguay, and the Argentine Republic. There are two important varieties and a third has been distinguished, although it has no great significance botanically or value commercially. Locally and in the trade the names given are Quebracho colorado (red), and Quebracho blanco (white). Quebracho colorado has the scientific designation of Loxopterygium lorentzii, and belongs to the order of Anacardiaciae. This is the particular tree from which both the sleepers and the better quality of tanning extract are derived. The other, Quebracho blanco, is neither so straight nor so serviceable as the red variety, but is nevertheless of definite commercial value, as it furnishes some tanning extract and the logs can be used for fence posts and axles. From it is taken also a drug extensively used for bronchial diseases; in fact, as a plant it was studied for this purpose long before its other advantages were exploited. The scientific name is Aspidosperma quebracho.

Railways must have sleepers on which to lay their rails. In some instances wooden ones are imported at great expense, or substitutes therefor are used if climatic conditions are favorable. As a rule, however, it is preferred to take supplies from native timber whenever procurable. This was the case in the Argentine Republic when railway building away from the coast had begun, and no more fitting wood could be discovered than that recommended by the natives, both by the name and by the experience of those who had used it. The quebracho wood proved by far the most serviceable for sleepers on South American railways, and its reputation grew so steadily that today many miles of European rails are supported by sleepers brought from the River Plate.

In one respect quebracho resembles rather mahogany than oak or pine. The trees do not grow in clumps or groves, but are dispersed through the forests and the less dense woods, singly or in groups seldom more than four or five to the acre. The tree itself is tall, about two or three feet in diameter, and is crowned by a rather thin, oval, or V-shaped, mass of branches and leaves. The white quebracho is somewhat smaller than the red, and begins to branch lower to the ground, so that it is not hard to distinguish them from each other. The leaves are oval, or lance shaped, smooth, somewhat shining and leathery; they do not fall completely in the winter, but cling to the branches in company with the fruit. The tree seems to thrive best on a sandy soil, where the atmospheric moisture is not very great, but where abundant water is provided for the roots, either by dews or sufficient rain. It is neither a mountain nor a river growth, but lives best in the subtropical stretches between water courses. Although the age of the tree has been given as measured by hundreds of years, it is well enough established that at ten years from planting the first small shrubs are big enough to use for posts. The future promises, therefore, an opportunity for the actual cultivation of quebracho, because, although savage inroads have been made into the supposedly inexhaustible forests of the Chaco, it is not too late to restrict the cutting of the tree, or even to adopt modern forestry methods of planting and conservation for the supply of coming generations. In fact, the Argentine Republic has already passed suitable laws in this direction, and it is more than probable that under the wise administration of that government there will be developed an arboricultural industry to proceed hand in hand with the preparation of quebracho posts for fences and construction work, sleepers for railways, and of tanning extract, the three industries for which this unique tree is at present utilized.

"Rollizos" is the Spanish word commonly employed in the trade for the rough and untrimmed logs (which the word means), from which only the bark has been removed. They are still supplied by smaller camps from dwarfed undergrowth not great enough for other purposes than posts, beams, cabin pillars, or cart axles. When the forest was first invaded these logs were the only product brought out of it, and the stories told of the primitive methods adopted by the natives for transport carry one back before the days of steam and machinery. A popular way of loading the logs was to lay them on the ground on ropes; then the animals were unharnessed and the cart was tilted bodily upside down over the logs; these were then made fast to the body of the cart, after which maneuver it was brought back to its normal position. Of course only two-wheeled carts were used. As soon as modern methods were introduced, and better carts or wagons became known, these primitive and cumbersome habits disappeared, although in the far interior even today rollizos are still brought to market in this manner. "Durmientes," according to the Spanish, or sleepers, in the English idiom, are probably the most important product of the quebracho of the Argentine Republic.

The industry of making sleepers has assumed huge proportions. The difficulties of former days have been largely overcome by the introduction of modern machinery, especially saws, and some of the mills many miles distant from any main railway are equipped and organized in a manner which would reflect credit on any similar plant in the United States. Special saws are needed to penetrate the wood, but they are furnished from the factories of England, France, and America. This mill business is carried on by many companies, although the tendency is to concentrate the management into fewer but larger organizations. One company owns a tract of land of about 4,000,000 acres, and is prepared to cut timber, fashion it into logs and sleepers, prepare tanning extract, and utilize every other resource which the land provides. Another company can turn out 20,000 to 30,000 sleepers a week. This number, however, can by no means meet the steady demand for railway building which is characteristic of this portion of South America. Sleepers are laid at about an interval of two feet from center to center. Assuming, therefore, only 2,000 sleepers for every mile, it will be seen that 30,000 are enough for only 15 miles. A year's supply at fullest capacity will consequently build only 750 miles of railway. But the Argentine Republic, Uruguay, Chile and Bolivia, all contiguous to the Chaco, are constructing more than this mileage, so that it is easy to see that every sleeper turned out from modern mills can at once find a local market. These sleepers are now finished at the mill, and the mill is situated at the spot in the forest itself most convenient for carrying on the process.

Quebracho extract prepared for tanning skins and hides into leather is, however, the most serviceable product of the tree. All the timber companies are adjusting their plants so as to utilize the wood, either in its entire output, or in that portion not reserved for posts and sleepers, for this extract. In Paraguay and areas in the Chaco remote from good roads, so that the cost of supplying timber is excessive, every particle of the wood is turned into extract, because the demand is usually in advance of the supply, and it is therefore more profitable to manufacture the more concentrated article, which can be easier and more economically carried to market.

One feature of quebracho, in which it is superior to other sources of supply, is that the bark, the sapwood, and the whole of the central part of the tree produce the extract in considerable quantities. The bark contains 6 to 8 per cent. of tannin, the sap 3 to 5 per cent., and the heart 20 to 25 per cent. As the heart represents two-thirds and often three-fourths of the total quantity of wood, the amount of tannin in the Quebracho colorado is seen to be considerable. It is merely a chemical question whether this tanning material is equal or inferior to that from the oak, but later methods of preparation point to a full justification of the claim that the leather from quebracho extract grades up to that resulting from any other tanning substance. So serviceable is it, however, that since its discovery, the tanning industry of the Argentine Republic has made noticeable advance, because, with both hides and extract as great natural products of the country, the government is making every effort to foster the leather industry within its own border.

"Quebracho extract," as it is called in the trade is easily manufactured when the machinery is once installed. All the wood is passed through a machine that cuts it into shavings or the smallest possible chips. It is then collected into immense kettles, in which it is treated by chemical processes until all the tannin is removed; after this the fluid preparation is reduced by evaporation to a thick, jelly-like mass, which is poured into sacks, where it is finally dried into the substance sold in commerce.

The difficulty of gathering the raw material far outweighs the preparation of the finished article, especially as the extract is no longer to be considered a by-product, but is coming to have more importance and value than posts and sleepers. In Paraguay particularly, where all the wood is utilized for extract, the hardest part of the business lies in gathering wood for the factory. The trees are cut in the heart of the virgin forest and hauled by ox teams to the nearest clearing. Only native Indians have proven themselves suitable for the work, as they are thoroughly acclimated, understand the wilderness, and can withstand the plague of insects which make life at night miserable for the foreigner; and exposure for nights as well as days is unavoidable, because the cutting stations are usually remote from any settlement.

In 1895 the first real exportation of quebracho extract from the River Plate was recorded. The increase has been rapid—from 400 tons in the first year to 9,000 tons in 1902, 120,594 tons in the next five years, and 28,195 tons in 1907. Of this quantity the United States received 17,733 tons, or almost 65 per cent.

Back to the Tall Timber.

Alfred—Are you going to pass your vacation at the seashore?

Gilbert—No, thank you. It's the woods for mine this year.

Alfred—Don't like the shore, eh?

Gilbert—Oh, I like it well enough, but it's too risky. I passed my vacation there last year and had several narrow escapes.

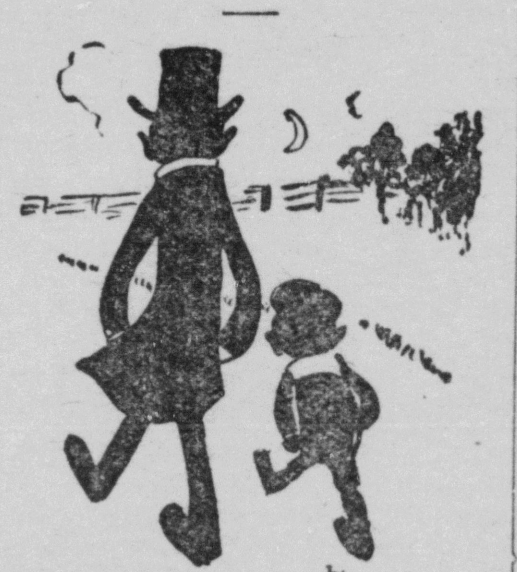
Alfred—From drowning?

Gilbert—No; summer girls. Seven of them proposed to me.

Casey at the Bat.

This famous poem is contained in the Coca-Cola Baseball Record Book for 1910, together with records, schedules for both leagues and other valuable baseball information compiled by authorities. This interesting book sent by the Coca-Cola Co., of Atlanta, Ga., on receipt of 2c stamp for postage. Also copy of their booklet "The Truth About Coca-Cola" which tells all about this delicious beverage and why it is so pure, wholesome and refreshing. Are you ever hot—tired—thirsty? Drink Coca-Cola—it is cooling, relieves fatigue and quenches the thirst. At soda fountains and carbonated in bottles—5c everywhere.

HE LIVED IN THE CITY.



Papa—Why can't we see the moon in the daytime?

Jimmie—'Cause they don't light it up until after dark.

Didn't Care for Expenses.

They were seated at the breakfast table.

"John, dear," said the young wife, "this is my birthday."

"I'm glad you mentioned it, darling," rejoined her husband. "I'll buy you a present the first thing when I get downtown."

"Well," she said, "I hope you won't get any cheap 98-cent affair."

"Of course I won't," he replied. "Why, I would be ashamed to present you with anything that cost less than a dollar."

Novelty.

"I thought you told me you had something original in this libretto," said the manager, scornfully. "Here at the very outset you have a lot of merry villagers singing, 'We are happy and gay!'"

"You don't catch the idea at all," replied the poet, wearily. "The 'g' is soft. It should be pronounced 'happy and jay.'"

Not an Objection.

"I think he'd like to join your club, but his wife wouldn't hear of it."

"She wouldn't hear of it? Why, I know of half a dozen men who would join our club if their wives couldn't hear of it."

Autoing and Optics.

"Is not auto driving terribly hard on the eyes?" we asked.

"Well, I guess not," replied the chauffeur, withering us with scorn. "Why, before I got to runnin' a car I was thinkin' o' gettin' specks, my eyesight was that poor I couldn't see the contribution box in church until it was so near past me it was too late to dig for any money. But I hadn't been runnin' that wagon two days till I could see a policeman's little finger stickin' out from behind a tree four miles away. I could even see which way a copper's eyeballs were turned if he was standin' in the shade three miles off. Hard on the eyes! Well, not much! It's the best medicine for weak eyes that was ever invented, don't you forget it."

Their Object.

Banks—The women of my town have formed a secret society.

Rivers—A secret society? Surely, that's a misnomer; women don't know how to keep secrets.

Banks—But they know how to tell them, and that's why they formed the society.

Otherwise Hopeless.

"My daughter's voice is to be tried today."

"Have you fixed the jury?"—Cleveland Leader.

We live truly in proportion as we go out of ourselves and enter into the fulness of the experience of those whom we serve, and by whom in turn we are served.—Westcott.

MORE PINKHAM CURES

'Added to the Long List due to This Famous Remedy.

Oronogo, Mo.—"I was simply a nervous wreck. I could not walk across the floor without my heart fluttering and I could not even receive a letter. Every month I had such a bearing down sensation, as if the lower parts would fall out. Lydia E. Pinkham's Vegetable Compound has done my nerves a great deal of good and has also relieved the bearing down. I recommended it to some friends and two of them have been greatly benefited by it."—Mrs. MAE MCKNIGHT, Oronogo, Mo.

Another Grateful Woman.

St. Louis, Mo.—"I was bothered terribly with a female weakness and had backache, bearing down pains and pains in lower parts. I began taking Lydia E. Pinkham's Vegetable Compound regularly and used the Sanative Wash and now I have no more troubles that way."—Mrs. AL. HERZOG, 5722 Prescott Ave., St. Louis, Mo.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female ills, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, indigestion, dizziness, and nervous prostration. It costs but a trifle to try it, and the result is worth millions to many suffering women.

Incorruptible.

The lady of the house hesitated.

"Are my answers all right?" she asked.

"Yes, madam," replied the census man.

"Didn't bother you a bit, did I?"

"No, madam."

"Feel under some obligations to me, don't you?"

"Yes, madam."

"Then, perhaps you won't mind telling me how old the woman next door claims to be?"

"Good day, madam," said the census man.

His Claim to Prominence.

At a social gathering a certain man, intent on knowing every one, was introduced to Senator Julius C. Burrows of Michigan.

"The name Burrows is very familiar to me," he said. "I am certain that you are a man of some prominence."

"Yes," replied Senator Burrows, "I am the man that 'died at first' just before Casey came to bat in that celebrated ball game in Mudville."—Success Magazine.

SOFT, WHITE HANDS

May Be Obtained In One Night.

For preserving the hands as well as for preventing redness, roughness, and chapping, and imparting that velvety softness and whiteness much desired by women Cuticura Soap, assisted by Cuticura Ointment, is believed to be superior to all other skin soaps. For those who work in corrosive liquids, or at occupations which tend to injure the hands, it is invaluable.

Treatment—Bathe and soak the hands on retiring in a strong, hot, creamy lather of Cuticura Soap. Dry and anoint freely with Cuticura Ointment, and in severe cases spread the Cuticura Ointment on thin pieces of old linen or cotton. Wear during the night old, loose gloves, or a light bandage of old cotton or linen to protect the clothing from stain. For red, rough, and chapped hands, dry, fissured, itching, feverish palms, and shapeless nails with painful finger ends, this treatment is most effective. Cuticura Remedies are sold throughout the world. Potter Drug & Chem. Corp., sole proprietors, Boston, Mass.

A Mean Man.

"Is your wife going to Europe this summer?"

"No. I've bribed a fortune teller to warn her to watch for a slim blonde woman who is coming into my life."

ARE YOUR CLOTHES FADED?

Use Red Cross Ball Blue and make them white again. Large 2 oz. package, 5 cents

Man cannot be happy when idle, unless resting from previous labor.

Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach liver and bowels and cure constipation.

Many of us have cause to be thankful for what we don't get.

MEAT WITH THE FAT

RICHNESS OF FLAVOR IS SECURED BY BROWNING.

Heating Usually Done In Frying Pan, Except In Case of Roasts, But Care Must Be Exercised to Avoid Scorching.

Next to the unchanged flavor of the meat itself comes the flavor which is secured by browning the meat with fat. The outside slices of roast meat have this browned flavor in marked degree. Except in the case of roasts, browning for flavor is usually accomplished by heating the meat in a frying pan in fat which has been fried out of pork or in suet or butter. Care should be taken that the fat is not scorched. The chief reason for the bad opinion in which fried food is held by many is that it almost always means eating burned fat. When fat is heated too high it splits up into fatty acids and glycerin, and from the glycerin is formed a substance (acrolein) which has a very irritating effect upon the mucous membrane. All will recall that the fumes of scorched fat make the eyes water. It is not surprising that such a substance, if taken into the stomach, should cause digestive disturbance. Fat in itself is a very valuable food, and the objection to fried foods because they may be fat seems illogical. If they supply burned fat there is a good reason for suspicion. Many housekeepers cook bacon in the oven on a wire broiler over a pan and believe it more wholesome than fried bacon. The reason, of course, is that thus cooked in the oven there is less chance for the bacon becoming impregnated with burned fat. Where fried salt pork is much used good cooks know that it must not be cooked over a very hot fire, even if they have never heard of the chemistry of burned fat. Recipes for bean-pot roast and other similar recipes may be varied by browning the meat or part of it before covering with water. This results in keeping some of the natural flavoring within the meat itself and allowing less to go into the gravy. The flavor of veal can be very greatly improved in this way.

How to Serve Watermelon.

Watermelons are especially cooling and refreshing on a hot day because of the quantities of deliciously-flavored juice which they contain. The edible portion is sometimes thoroughly chilled, cut in small cubes (removing seeds), sprinkled with powdered sugar and arranged in coupe glasses for the first course at luncheon or dinner. For family use it is most attractively served in one of the following ways: Cut a section three or four inches in thickness from the center of a chilled watermelon. With a sharp knife cut out a circle of the pink pulp (the edible portion) and place upon a chilled serving-dish of correct size. Serve in pie-shaped pieces on chilled plates or cut off a thick slice from both ends of melon (that the halves may stand level), and cut in halves crosswise. Arrange on a serving-dish on a bed of green leaves, if any are at hand.

Comet Salad.

Soak one-half box of gelatin in one-half cupful of cold water for five minutes; add one-half cupful of mild vinegar, the juice of one lemon, one pint of boiling water, one-half cupful of sugar, and one teaspoonful of salt. Strain and when beginning to set add one cupful of finely shredded cabbage, two cupfuls of celery cut in small pieces, and one-fourth can of sweet red peppers finely cut. Turn into a mold and chill. Serve on lettuce leaves with mayonnaise dressing or cut in dice and serve in cases made of red or green peppers, or the mixture may be shaped in molds lined with pimentos. This is a delicious accompaniment to cold sliced chicken or veal.

Escalloped Corn.

Butter a baking dish, and in the bottom of the dish put a layer of rolled cracker crumbs, a little salt, pepper, and dots of butter; then a layer of canned corn, salt, pepper and butter; then cracker crumbs, salt, pepper and butter, and so on. Have cracker crumbs for last layer, salt, pepper and butter; then over all pour plenty of rich milk, as the crumbs absorb a good deal. Bake three-quarters of an hour in a moderately hot oven, until a light brown. This is a delicious dish, and one can of corn will serve ten people.

Rice and Cheese.

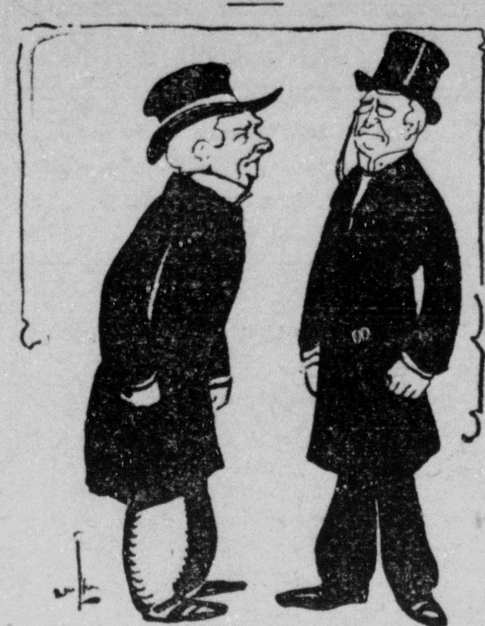
One teacupful of rice to four cupfuls of hot water. Boil rapidly for 20 minutes. On bottom of buttered baking dish put layer of bread crumbs, then a thick layer of rice and grated cheese, another layer of rice, another of cheese. Finish with bread crumbs on top. Pour over all a cold mixture of one egg, one cupful of milk, two tablespoonfuls of melted butter, one tablespoonful of salt, one-fourth teaspoonful of dry mustard. Bake 20 minutes in a quick oven. This is delicious as a luncheon dish or as a substitute for potatoes with meat.

Cleaning Straw Hats.

Many a person uses a solution of oxalic acid and water for cleaning a straw hat. Sometimes this solution gets on the hat band, sadly discoloring it.

The damage may be overcome by wiping off the band with ammonia water. An application or two of this liquid will restore the color.

ASKING THE IMPOSSIBLE

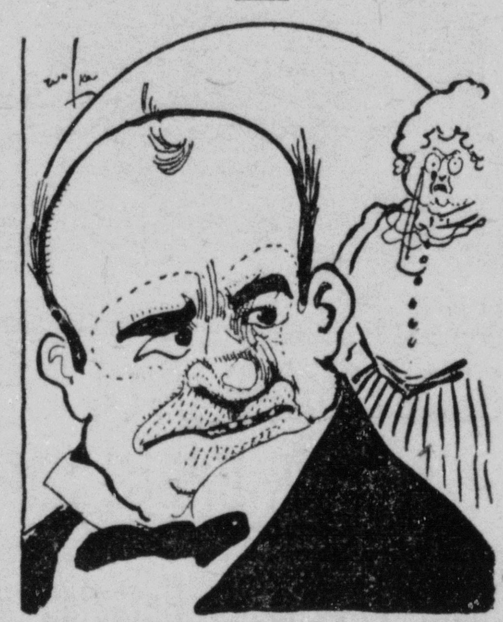


Jack—I found a hair on that overcoat you let me take.

Jim—Well, keep it dark.

Jack—I can't; it's a blonde hair.

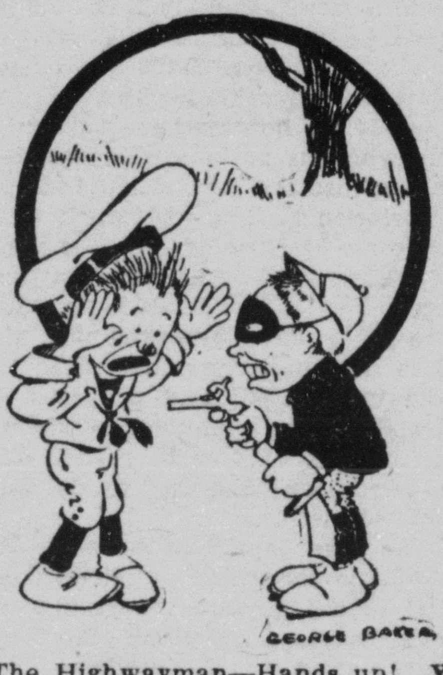
FLATTERING HIMSELF



Mrs. Screecher—There are very few really good men in the world.

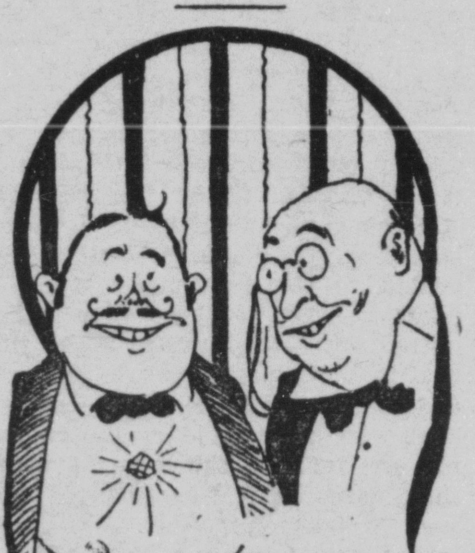
Screecher—Yes; you were lucky to get one.

MODERN METHODS



The Highwayman—Hands up! Yer marbles or yer life!

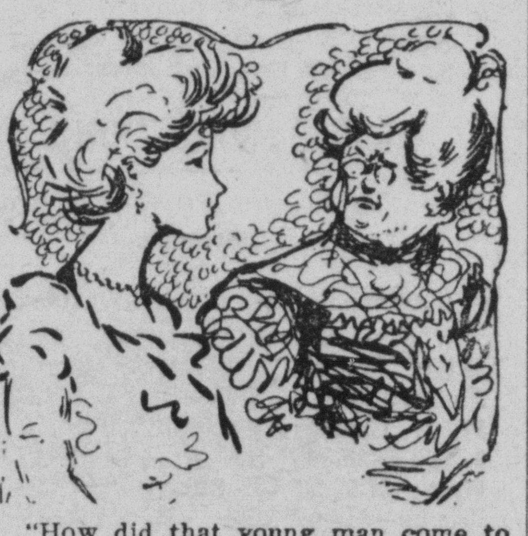
HOW HE KNEW



"Is Scribbler a press humorist?"

"I judge so—I saw him pressing Miss Oletimer to his heart and swearing he loved her for herself alone."

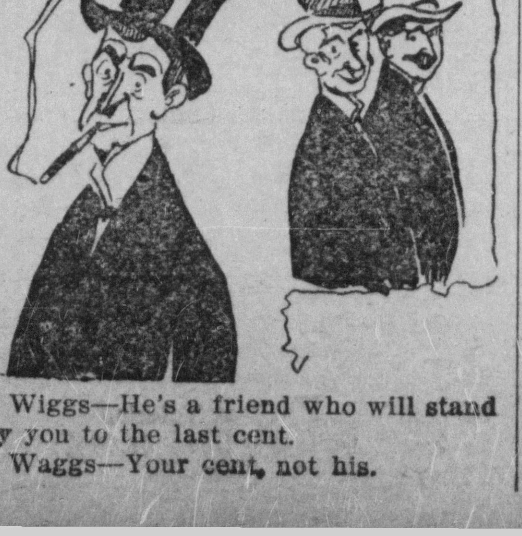
DODGING THE ISSUE



"How did that young man come to kiss you?"

"I think he came in the street car, ma."

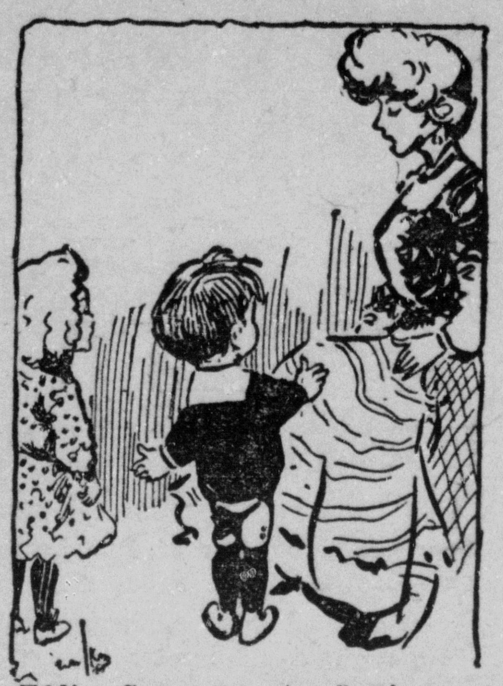
HE KNEW HIM



Wiggs—He's a friend who will stand by you to the last cent.

Waggs—Your cent, not his.

HE'D GET THE APPLE.



Eddie—Say, mom, give Jessie an apple.

Mamma—Then you'll want one, too.

Eddie—No. Just give it to Jessie. We are going to play Adam and Eve, and she is going to tempt me.

Alms and the Man.

"Sure Father Flaherty was a good man," Mr. Murphy said of the deceased parish priest. "He hated sin but he loved th' sinner, an' he was all compassion an' patience an' wisdom. There never was another loike 'im f'r holdin' up hope to th' poor batthered man that had anny desire f'r good.

"'Faith,' said he to Con Meehan, th' toime th' bh'y was down an' out, 'faith, this soide av paradise 'tist all beginning again, over an' over, an' tin toimes over!'

"An' that keen," continued Mr. Murphy, "'twas niver worth whoile to keep back part av th' price av th' land! Wid a twinkle in his eye he'd see clean through anny Ananias that iver walked.

"An' gin'rous!" Mr. Murphy's voice dropped to a lower key and his eyes were wet as he added, "His hand was always in his pockut, an' whin they prepared him f'r burial they found his right arm longer than his left wid stretchin' it out to th' poor."—Youth's Companion.

WEAK KIDNEYS WEAKEN THE WHOLE BODY.

No chain is stronger than its weakest link. No man is stronger than his kidneys. Overwork, colds, strains, etc., weaken the kidneys and the whole body suffers. Don't neglect the slightest kidney ailment. Begin using Doan's Kidney Pills at once. They are especially for sick kidneys.

Every Picture Tells A Story

Ted Hiatt, Oswego, Kans., says: "For many years I suffered from kidney disorders. I was treated by specialists in Kansas City and Chicago, was told I had an abscess of the kidneys and an operation was advised. I thereupon began the use of Doan's Kidney Pills and gradually improved. Soon an operation was unnecessary as my kidneys were well."

Remember the name—Doan's.

For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Old Advice.

Manager—You never get this scene right. Your business with the sweet peas is all wrong and you forget when you are to speak—you get your lines all mixed up.

Actress—All right, sir, I'll be more attentive and fix the sweet peas and try to get my lines in the right place.

Manager—Your course is very simple. Just mind your peas and cues.—Baltimore American.

Women in Love.

"Women in love are generally troublesome and persecuting." Such is the reported opinion of M. Emile Faguet. And if a French critic does not understand the subject, of whom shall we seek understanding?"

GOOD COMBINATION on exclusive Mfg. proposition in R.R. patent. All steam and electric roads a market. Also $136.00 watch repair outfit, cheap. E. P. Batchelder, Siskiyou, Oregon.

Truth is cut up to patch too many lies. You can never boil the lies back into truth again.

If you wish beautiful, clear, white clothes use Red Cross Ball Blue. Large 2 oz. package, 5 cents.

Sometimes a woman keeps on telling people how smart her husband is until she actually believes it.

Mrs. Winslow's Soothing Syrup.
For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

And many a coming man neglects to arrive.

She Lives in Bingville.

A south Missouri paper is carrying this ad.: "Attractive woman, not a day over thirty, would be pleased to correspond with eligible man. Not absolutely necessary that he should be young. Would prefer one with property, but one with a good paying position would be satisfactory. The young lady is of medium height, has brown hair and gray eyes, not fat, although, most decidedly, she is not skinny. Her friends say she is a fine looking woman. Object matrimony. Reason for this advertisement, the young woman lives in a little dinky town, where the best catches are the boys behind the counters in the dry goods and clothing stores, and every one of them is spoken for by the time he is out of his short pants. Address Hazel Eyes, Box 23, Bingville, Mo."—Kansas City Star.

Small Job.

Him—I was confused for a bit, I confess, but it took me only a moment to collect my wits—

Her—Yes, it couldn't take any longer than that. Go on.

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heart-burn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at these will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of native American medical forest plants. World's Dispensary Medical Association, Props., Buffalo, N. Y.

HEAVY SHIPMENTS.

Railroads Making Preparations to Handle Large Quantity of Wheat.

The railroads entering this city are making preparations to handle large shipments of wheat during the latter part of this month. While a number of carloads of grain have already been carried this year it is not believed that the rush season will begin before the middle or the latter part of the month.

The freight traffic has been unusually heavy this summer and the companies are at a loss to know how to handle the new grain to the best advantage. The shippers desire that the shipments be carried over the road as rapidly as possible as a delay is often a heavy loss. The railroads have been running a full schedule of freight trains for several months, although this is usually the quiet season, and a full force of men have been employed. A number of the employes have asked for vacations but the officials were compelled to refuse the requests on account of the large business. It is believed that every car on the B. & O. S-W. will be in use constantly during the busy season when the grain dealers begin to ship new wheat.

AN AUTO DRIVER WAS NEAR DEATH

Infuriated Farmers Had Rope Ready to Hang Him.

TO TEACH OTHERS A LESSON

Record-Breaking Run of Auto Load of Des Moines Police Saves Iowa Disgrace of a Lynching, Police Reaching Rural Community Just in Time to Save Manufacturer Whose Machine Had Frightened Horses.

Des Moines, Ia., Aug. 9.—Only the record-breaking run of an outo load of policemen saved J. A. Kefner, manager of the Eagle Iron works, from a lynching at the hands of a band of infuriated farmers ten miles east of this city. Keefner and his daughter were making a business trip into the country when their machine frightened a farm team driven by William Wardruff, causing the horses to run away and threw Wardruff to the ground, breaking several bones.

The farmers working near by swore that Keefner had not taken the precaution to stop when he saw the team becoming unmanageable, and declared that by "hanging a few auto upstarts from the city" it might teach them a lesson." Keefner's daughter made her way to a farmhouse and phoned the Des Moines police station that her father was going to be lynched by a mob of farmers. Police Sergeant Breeding and three other officers jumped into an auto and made the run of ten miles in seven minutes. They reached the scene in time to find a rope in the hands of maddened farmers and Keefner badly frightened. He declares he slowed down when he saw the team. Several bad runaways in the neighborhood recently have made the entire community enraged when devil wagons come. Keefner refused to prosecute those who proposed to lynch him.

GEORGIA INTERESTED

Taft's Elimination of the Negro Attracts Southern Attention.

Atlanta, Ga., Aug. 9.—When President Taft yesterday named Henry S. Jackson as collector of internal revenue for Georgia to succeed Henry A. Rucker, it marked the elimination of the negro from high federal position in this state.

Rucker was the last negro left in a responsible position, and the fact that he has been succeeded by a white man is interpreted here to mean that Mr. Taft intends to try to attract whites of the south into the Republican party by ignoring the negroes. Henry A. Rucker has held the office of internal revenue collector for Georgia since 1897. He was appointed by McKinley and held office under the Roosevelt administration.

DEADLY COLLISION

Thirteen Killed in Wreck on California Northwestern Railway.

San Francisco, Aug. 9.—Thirteen persons were killed in a collision between two passenger trains on the California Northwestern railroad thirty miles north of this city. Eleven were injured.

Printers Meet in Minneapolis.

Minneapolis, Minn., Aug. 9.—With delegates from every part of the United States, the fifty-sixth annual convention of the International Typographical union opened here. Governor Eberhart welcomed the delegates.

Couldn't Endure Repulse.

Shelbyville, Ind., Aug. 9.—Robert Scott, aged twenty-four, shot and killed himself while at the home of Miss Annis Hill, daughter of Mr. and Mrs. Perry Hill, because the young woman refused to marry him.

GOVERNOR JOHN BURKE.

North Dakota Man Who May Be Candidate For President.

SLIPPED ONE OVER ON OUR UNCLE SAM

More Rottenness Revealed In Indian Land Cases.

Beverly, Mass., Aug. 9.—The startling revelations in Oklahoma in connection with Indian lands in that state, made to the congressional committee looking into the charge by Senator Gore, have struck an echo here in Beverly. It has become known that someone, who was not named, succeeded in having inserted in the last Indian appropriation bill a joker which was intended to bring hundreds of thousands of dollars into the hands of parties interested in Indian lands in Oklahoma. The joker was discovered just at the close of the session, but rather than hold up the bill and congress, Taft signed it after a method in which the government expects to render it useless had been unearthed by the department of justice.

The joker apparently was a harmless little paragraph permitting an appeal to the supreme court in certain land cases decided by the United States court for the southern district of Oklahoma. These cases, which involved in the neighborhood of 20,000 contracts for lands, were decided against the government in the district court. The contention of the defendants had been that the government had no right to bring the suits, and that they should have been entered by the individuals themselves. This the district court agreed to. On demurrer the cases came to the court of appeals and the government won. Under the law, cases on demurrer cannot be appealed to the supreme court. The joker inserted in the Indian bill permitted the defendants to make an appeal to the supreme court. According to the tale told here, the object of the men who got the joker inserted was not so much in the hope of winning their cases as it was to give them a year or eighteen months more time. A large part of the land involved is underlaid with coal and petroleum. In the year and a half that might intervene if appeal were allowed, much of this oil and coal might be removed.

The government expects to annul the effect of this joker, it is said, by asking for the appointment of a receiver for these lands.

The strike of the shipyard workers at Hamburg is rapidly spreading to other German shipping ports.

PERSONAL.

F. H. Hadley went to Chicago last night.

R. D. Hays, of Cortland, was in the city today.

Miss Viola Sickles spent the day in Vallonia.

W. P. Masters returned from Peru this morning.

Dallas Tyler and Fred Everback went fishing this morning.

E. G. Abbott, of Milan, was here on business Monday afternoon.

E. M. Hays was here on business Monday afternoon from Danville.

Dr. W. H. Dings, of Mitchell, was a business caller in Seymour Monday.

August Luedtke of Sparksville, was here on business Monday afternoon.

John Emily, of Rockford, transacted business in this city this forenoon.

H. L. Woelz, of Indianapolis News, transacted business in this city today.

Mrs. Florence Prudy, of Indianapolis is visiting friends in Vallonia.

Miss Josephine Snyder, of Vallonia has been visiting Miss Lula Quadde.

John M. Lewis went to Indianapolis and Danville today on a business trip.

Mrs. Thomas Weddle has retuprned to Medora from a visit in Indianapolis

Leroy Miiler left Monday for New York on a pleasure and business trip.

Jason Bottorff, of Cortland, transacted business in Seymour this morning.

W. A. Young was here from Osgood Monday afternoon on a short business trip.

George E. Ellis, of Columbus, transacted business here Monday afternoon.

Dr. J. K. Ritter and N. M. Carlson and wives are home from a trip to Niagara Falls.

F. G. Prevo of North Vernon transacted business in this city Monday afternoon.

Dr. Scott Applewhite, of Brownstown, was in the city this morning for a short time.

Miss Lula Burrell returned to Brownstown today from a visit in Indianapolis.

Joseph Hall, of Azalia, was here Monday and visited his daughter, Mrs. L. M. Mains, jr.

Miss Anna Laird of Louisville has returned home after visiting Miss Stella Seybold.

Miss Gail Harrington, of Blocher, is the guest of Mrs. Edna Pleasant for several days.

Mrs. Laura Lucas and daughter, of Brownstown, have gone to Pendleton to spend a few days.

Miss Clara Tate who has been in Indianapolis some time has gone to her home in Vallonia.

Tipton Ross, of St. Louis, is visiting his parents, Mr. and Mrs. John Ross for several days.

Miss Florence Green has returned to her home in Taylorsville after a visit with friends in Seymour.

John Holtman left this morning for a week's vacation at Fort Wayne and other places in northern Indiana.

Mrs. Ella F. Stoddard of Dayton, O., is here visiting her sisters, Misses Agnes and Sadie Frey for a few days.

Tony Schaffenberger and family returned to Cincinnati Sunday evening after a visit with his brother in this city.

Mrs. Fred Clark and sister, Miss Ruth Church, of Indianapolis, are the guests of Mr. and Mrs. Harry Clark, of this city.

Mrs. J. A. Linke and son, Robert, returned from Hope where they have been spending several weeks with her father, Solomon Snyder.

Mrs. P. A. Scott, of Indianapolis, aunt of Mrs. A. B. Shutts, of Seymour, was here today en route to the Deputy camp meeting.

Irby Eacret went to Madison this morning where he will have a refreshment stand at the chautauqua which is in progress there this week.

Mrs. Smith of Ft. Wayne who has been visiting at Brownstown, returned home today. Her brother Philip Sable, accompanied her to Seymour.

Miss Christine Plumer, of Newport, Ky., returned home this morning after a visit of several days with her aunt, Mrs. S. L. Crowe, of Indianapolis avenue.

If your liver is sluggish and out of tone, and you feel dull, bilious, constipated, take a dose of Chamberlain's Stomach and Liver Tablets tonight before retiring and you will feel all right in the morning. Sold by Andrews-Schwenk Drug Co.

Saxony's Forests.

Saxony possesses one of the best regulated systems of forestry in the world.

ITINERARY GIVEN FOR WHEAT TRAIN

Special Sent Out By Purdue University Will Be in Seymour August 29.

MANY FARMERS INTERESTED.

Object of the Trip Is to Show That The Average Yield Can Be Increased.

The wheat improvement train which will be sent out by the experminental station of Purdue University will be in this city on Monday, August 29, according to the schedule which has been arranged.

The objects of the train are to stimulate interest in wheat growing in Indiana and to disseminate information relative to selection of varieties, cultural methods, fertilization, control of plant diseases and methods of combating injurious insects. The average wheat yield in Indiana is about 13.3 bushels to the acre and the cost of producing an acre of wheat in this state is estimated at $12. The profit, therefore is very small. The Purdue University Experiment Station officials believe that the average yield of wheat of the state should be materially increased or farmers should stop growing wheat and grow some crop that will return a substantial profit. Just what the Experiment Station officials believe can be done to increase the yield of wheat and improve the quality of the grain will be presented in the lectures given on the train and in the literature distributed. G. I. Christy, superintendent of Agricultural Extension, Purdue Experiment Station, Lafayette, Ind. can give detailed information and will answer any questions local farmers want to ask about the coming train.

The special will start August 22, and will visit a number of northern Indiana cities until the 29th when the train will start from Indianapolis to Henryville. It will stop at Edinburg from 10:10 o'clock a. m. to 10:50 o'clock; will remain at Taylorsville from 10:55 o'clock until 11:25 o'clock will reach Columbus at 11:35 o'clock and remain there until five minutes after noon, and will get to Jonesville at 12:25 o'clock, where it will remain until 12:55 o'clock. The stop here is for thirty minutes, from 1:10 o'clock until 1:40 o'clock. The train will return from Henryville in the evening and go to Madison to spend the night. Thirty minutes will be devoted to Madison on the morning of August 30 and the train will then go to Columbus on the branch, stopping at Elizabethtown and then to Richmond.

The rest of the schedule, allowing a day for each trip, is Richmond to Ft. Wayne, Ft. Wayne to Howe, and South Bend to Lakeville, Plymouth to Frankfort, Frankfort to Terre Haute, Terre Haute to Indianapolis, and Indianapolis to Bicknell. The train returns from Bicknell to Indianapolis, that concluding the trip.

BORN.

To Mr. and Mrs. Wm. Lahne, of E. Second street, Sunday August 7, twin boys.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and muscous surfaces. Hall's Catarrh Cure is not a quack medicine It was prepared by one of the best physicians in this country and for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the muscous surfaces. The perfect combination of the ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

Take Hall's Family Pills for constipation.

MILK CONTEST.

Planned for State Fair at Indianapolis This Year.

The Indiana Jersey Cattle Club has provided for the first milk test ever held in connection with the Indiana State Fair. The contest is open to owners of registered Jerseys and prizes aggregating $450 will be given.

Under the direction of experts from Purdue University, cows will be milked twice a day for two days and a test made of the product. The contest is expected to be of lasting benefit to the successful competitors, since a new value will be placed on the owners' herds. L. G. Vannice, promoter of the new contest, expects forty cows to be in competition for the special prizes.

The milk-test contest was imported from Jersey Isle, the home of the breed, where great interest is taken in developing first-class stock. Gold, silver and bronze medals are given to the winners.

Be sure and take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with you when starting on your trip this summer. It cannot be obtained on board the trains or steamers. Changes of water and climate often cause sudden attacks of diarrhoea, and it is best to be prepared. Sold by Andrews-Schwenk Drug Co.

CARS READY.

For the Beginning of the Melon Shipments.

The Redding township melon growers' association expects to begin shipments next week. Six cars are waiting on the sidings at Reddington and 18 or 20 more are at Westport and Azalia in readiness. The shipping season generally lasts about three weeks. Last year the Redding township growers shipped about thirty-five cars but it is not expected there will be as many this year. The rainy season injured the crop and rust also did some damage.

When the digestion is all right, the action of the bowels regular, there is a natural craving and relish for food. When this is lacking you may know that you need a dose of Chamberlain's Stomach and Liver Tablets. They strengthen the digestive organs, improve the appetite and regulate the bowels. Sold by Andrews-Schwenk

SMITH & MARTIN, Publishers:

SEYMOUR INDIANA

Did you hear a noise like a fly?

There's no age limit on circus boys.

The best way not to get typhoid is to prevent it.

Have you joined the fly crusade? It doesn't cost anything.

We are now supposed to each have $34.59. Why fool with the odd figure?

The only safe bet on the weather seems to be that the worst is yet to come.

The little brown hen outranks the eagle bird in every essential and desirable respect.

Wellesley girls have been advised to have reasonable intervals between pickles and fudge.

As between inconveniencing the scorching automobilists and the public let us not hesitate.

That fellow who turned burglar because a girl jilted him doubtless was looking for an excuse.

Who can blame the June brides for being indignant when flippant scribes refer to them as a "crop."

Aeroplane races across the continent will rival in spectacularity the 2:40 trot at the county fair.

We denounce race suicide and still permit the homicidal joy rider to roam at large seeking fresh victims.

Any automobilists who have declared war on the human race will have to be treated accordingly.

About the easiest thing for a married woman to do is to make her husband believe that he knows best.

Paying fines to the government as a penalty for smuggling seems a poor way to wind up a pleasure trip abroad.

Can the steeple jack who stole 654 pounds of copper from a church steeple be convicted of highway robbery?

Smuggling is one of those amusements which ought to be left to the ridiculously rich who do not mind expense.

Do we sufficiently appreciate those aviators who are falling from perilous heights that the rest of us may learn to fly?

Thus far, we believe, the life insurance companies are inclined to regard aviation as one of the more or less hazardous occupations.

In learning how to manage a flying machine the principal drawback is that you can't rest the machine on anything solid while you are doing it.

In addition to the hot water geysers in Yellowstone park an ice cold geyser has been discovered. The Yellowstone has nearly all the modern improvements.

If a man is willing to mortgage his house and lot to buy an automobile he shouldn't kick if he has to mortgage his furniture in order to pay his repair bills.

One consoling thought during the hot weather is that we are all free and untrammeled American citizens and we will have a bunch of men coming around telling us about it until some time in November.

The expert swimmers are beginning to get themselves drowned. One good thing about the young man who can't swim is that he never shows off by getting so far from the shore that there is no chance for him to return

A college student is leading a healthful and athletic life on one dollar a week, and the society women of Long Island who are fasting for the sake of health and beauty are gaining rosy cheeks and general benefit.

The New York public schools are to experiment with folk-dancing in the streets by the children to the music of a hurdy-gurdy. The monkey ought certainly to be omitted as master of ceremonies at the inauguration of this addition to the fad curriculum.

It is just 91 years since the first steamship crossed the Atlantic ocean. It departed from Savannah, which winks and nods now while New York takes the money and the glory. The air of Savannah is heavy with languoros perfume. The air of New York is often heavy with perfume, too, which is not languorous, but of a sort to keep people awake.

New York suspended business while a boy sailed a dirigible balloon over City Hall park. Elsewhere throughout the country the dirigible is only a country fair sideshow nowadays.

Some real good use for the flashing electric sign has been discovered at last in New York. A squad of policemen rescued ten persons from death in a burning tenement by using the bulb sockets as a ladder. Otherwise these contrivances are chiefly beneficial to the oculists and opticians.

IMPORTANCE OF GOOD LIGHT AND VENTILATION

One of Common Errors in Building Stables Is Failure to Provide Windows and Ventilators in Sufficient Numbers.

One of the common errors in building stables is to fail to provide windows and ventilators in sufficient numbers. In the cheaper barns it is the light especially that is usually left out of the calculation. This is one of the most serious mistakes when we stop to think of how cheap light really is and how valuable it is as a germicide.

Many of the diseases of our live stock may be attributed to germs. Tuberculosis is caused by specific germs. The myriads of germs that escape from tubercular animals confined in a barn are disseminated through the stables, and sunlight is a factor in the destruction of these germs. In fact light destroys much germ life. Aside from the health standpoint good light in the stables makes work more pleasant and provides greater comfort for the farm animals.

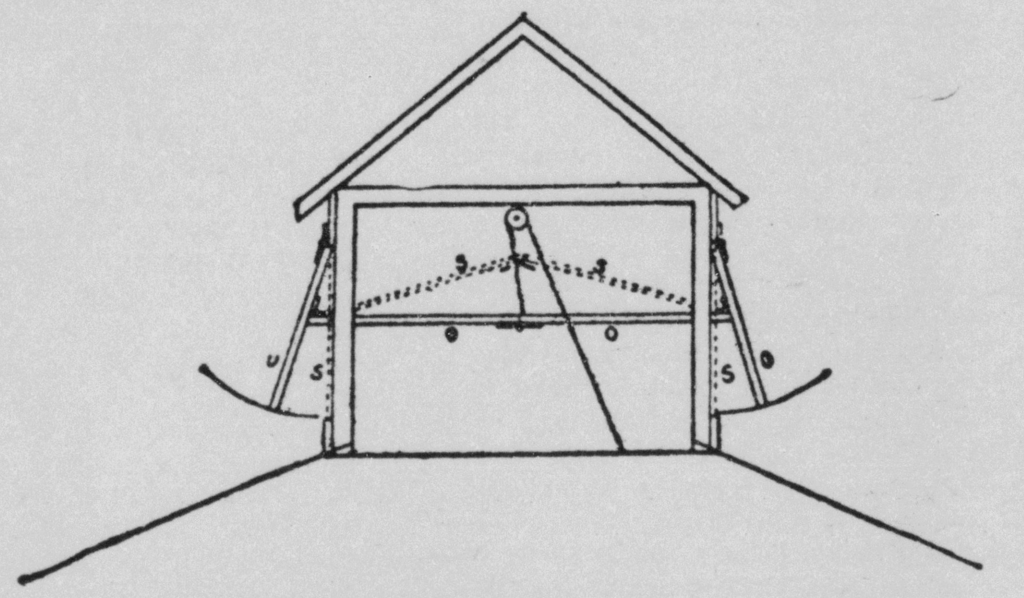
Why not have the barn as light as the parlors of the farm house? It costs but a few dollars more if the windows are provided when the building is being constructed. Judgment, however, should be exercised in putting in windows in the right place. A uniform light should be provided in all parts of the stable.

The furnishing of light is an important one in the construction of any farm building and it is not hard to obtain if a little forethought is exercised. However, with ventilation it is different because considerable planning must be required when building to insure an ample supply of fresh air in the barn at all seasons of the year. It is important to have fresh air in the barn during cold weather and at the same time avoid draughts.

In the summer windows and doors may be left open, but in the winter time it is quite different. Inlet pipes for fresh air should be constructed as well as proper outlets for carrying off odors and bad air.

Ventilators should be distributed about the barn instead of relying upon one or two large ones far apart. The idea should be to equalize the ventilation so that the entire stable admits of proper ventilation.

Statistics show that the amount of pure air breathed by different animals during a period of 24 hours in order to supply oxygen needed is as follows: The horse requires 3,401 cubic feet; the cow 2,804 cubic feet; the pig 1,103 cubic feet. Thus it will seem that the horse will draw into and force out of his lungs each hour on an average 142 cubic feet of air; the cow 117 cubic feet; the pig 46 cubic feet; the sheep 30 cubic feet; the hen 1.2 cubic feet. It is therefore very important that our ventilation in our modern farm buildings should be provided with plenty of fresh air at all times in order to contribute to the health of the live stock



Self-Regulating Stable Ventilator.

With the outlet pipes it is not necessary to have more than one or two—often one is sufficient, depending of course upon the size of the barn.

As an easy way out of the difficulty we would suggest to our readers that they make a ground plan of their buildings giving exact dimensions as to height, width, length of building and submit it to manufacturers of ventilating apparatus, and ask for an estimate on the cost of installing a perfect ventilating system.

VARIETIES OF TAME GRASSES

Careful Study Will Disclose Fact That Flocks and Herds Thrive Better on Mixture Than on One Kind.

(By S. M. MILLER.)

There is no one matter connected with good farm management that is more deserving of more careful attention than the growing of tame grasses, and the maintaining of the productive capacity of our permanent pasture land. The successful grass grower needs to have a practical understanding of all the species of tame grasses that we grow and cultivate on our farms as well as a knowledge of their requirements and conditions that are essential to their growth. Much of the success and many times all of the profits of our farms are directly dependent upon the amount and quality of hay and forage produced.

A cause of the inferiority of our meadow lands is the fact that they are supporting numberless useless weeds.

If we could rid our meadows of this pest it would add millions of dollars to the pockets of our farmers. How can it be done? By thorough tillage? By the use of more grass seed? Most emphatically no. That would be in direct opposition to the laws of nature.

We may prepare the soil in the best possible manner and sow on clover and timothy so thick that the grass will come up as thick as the hair on a dog and in some places we will yet find that the young plants will die out and their places be filled with noxious weeds.

These interspaces may be filled eve so often with fresh seed and the result will be similar which is conclusive evidence that every soil has a capacity for supporting a certain number of one kind of plants and it will produce no more than that number of that variety no matter how well it is tilled or how many are germinated of that particular soil.

When we fill these interspaces between the plants with another specie of grass a certain lot of its plants will grow and the rest will die soon after they have germinated.

The ones that grow will not interfere with the other varieties and the yield will be increased.

Practical experience has shown us that any soil will be more certain to yield larger and better crops of forage and hay when it is seeded with mixed grasses than when sown to clover and timothy alone.

Our flocks and herds will thrive better when fed on mixed grasses, (no matter whether in a green condition or cured for hay) than they will when fed on any one or two varieties sowed alone, no matter how nutritious these grasses may be.

We will find it in every way as important to balance our forage rations as it is the grain rations if we obtain the best results from a minimum amount of feed.

EXCELLENT BERKSHIRE BOAR

The Berkshire shown in the illustration, while a large, vigorous animal, is not the best type of the breed. His ears are a little too coarse and his nose is somewhat too long. He has, however, excellent bone and brings good, healthy pigs. He is used on a grade herd to produce market hogs and gives the best of satisfaction.

Money in Broom Corn.

There is good money in growing broom corn where one has the time and facilities for harvesting the crop.

EXCELLENT BUTTER CAKES

Instructions That Will Enable the Cook to Prepare These the Most Appetizing Way.

Sift together three cups of flour, four and a half level teaspoonfuls of baking powder and three-quarters of a level teaspoonful of salt. Rub into this two tablespoonfuls of butter until the flour looks and feels mealy, then add one and one-half ounces of milk, and beat for a moment to a smooth dough. Have a coarse linen or canvas cover for your molding board and a woven cover for the rolling pin. Turn the dough out on a well-floured cloth and toss into a ball with a knife. Slip the cover over the pin and rub it full of flour, then roll out the dough with light pats.

This should be moist, so it will stick to anything but the well-floured canvas. It must not be touched with the hands except when the cakes are laid on the griddle. Roll the dough out into an even sheet, about three-quarters of an inch thick, cut out with a biscuit cutter and bake on a granite griddle, leaving them far enough apart so they will not stick. The fire should not be too hot.

When the cakes puff up to double their size, turn and bake on the other side. Have a second batch baking while the first is being eaten, like griddle cakes. Serve hot, so the butter will melt at once when the cakes are split and the butter is spread between them.

Labor Saving Cleanser.

The labor of housework may be materially lessened and better results obtained by the use of kerosene instead of soap, powder or polisher. It is a foe to soil and grime, which disappear under its use as if by magic.

To Wash Windows—Add one-half cupful of kerosene to a gallon of cold or tepid water. Wash with one cloth, wipe dry with a second, and then rub lightly with a third. The result will be windows of a brilliancy and transparency not to be obtained by any other means. Mirrors and chandelier globes may be treated in the same manner.

To Polish Hardwood Floors and Woodwork—Wipe the surface with a cloth slightly dampened with kerosene, then rub lightly with an old soft cloth.

To Whiten Clothes—Three tablespoonfuls of kerosene added to the clothes while boiling makes an excellent bleach. Care must be taken to use only hot water for rinsing and bluing the clothes after the use of kerosene.

This cleanser has the additional value of being excellent for the hands, both softening and whitening them.

Ice Cream Cake.

Whites of five eggs, one and one-half cups fine granulated sugar, one-half cup of butter, one cup sweet milk, one teaspoon cream of tartar, one-half teaspoon soda, three cups sifted flour. Color one-half of the mixture pink with strawberry coloring and flavor with vanilla. Flavor the white part with lemon. Bake slowly in a brick loaf tin, putting the white dough in first and the pink dough on top. Forty minutes is about the right time. Try with a straw and take out as soon as done or the colors will not keep their color otherwise. Turn on a board and frost with a white icing. Color one-half of it pink. Spread the pink icing on the white part and then the white icing on the pink part and cover with a chocolate glaze made by melting one and one-half squares unsweetened chocolate. Do not stir, and when melted spread over frosting.

Surprise Cake.

Make a plain white cake of one cupful of sugar, one-half of butter, two cupfuls of flour sifted with two teaspoonfuls of baking powder, and add at last the stiffly beaten whites of two eggs, one-half teaspoonful of vanilla. Bake in flat pan. In each square press a chocolate cream before frosting with the yolks of two eggs beaten and stiffened with powdered sugar and flavored with vanilla.

Green Pea Salad.

Boil green peas until tender; when done, drain on a sieve and let them get cold. Rub a salad bowl with a clove of garlic, arrange the peas with some cooked beans neatly in the bowl, and garnish with rings of hard boiled eggs, rounds of cooked sliced beets, and parsley. If the flavor of onion is liked, one finely chopped shallot may be mixed with this salad. Serve with French dressing.

Oatmeal Cakes.

Cupful of butter or one-half lard and one-half butter, one cupful of sugar, one teaspoonful of cinnamon, one cupful of sour milk, one level teaspoonful of soda, one egg, one cupful of raisins and mixed currants, two cupfuls of cracked oats, two cupfuls of flour. Drop on pans about size of walnut an inch apart. If sweet milk is used use two teaspoonfuls of baking powder. These have a nutty flavor.

Omelet With Calf's Brains.

In serving an omelet with calf's brains parboil the latter in salted water, adding a clove, slice of onion and a bay leaf. Chill, cut into dice, dip in egg and crumbs, fry in deep fat and serve round the omelet.

Cheese Balls.

Beat the whites of two eggs stiff. Have ready one-half cupful of finely grated cheese. Mix cheese and beaten eggs quickly, mold into balls with floured hands, and fry in hot fat. Serve while hot.

HOME TOWN HELPS

MAIL ORDER TRUST METHODS

Advertised Goods Usually Barely Within Letter of Attractive Catalogue and Circulars.

Monopoly thrives and prospers on substitution and fraud. The large mail order houses sell their goods from vivid pictures and glowing descriptions. They pay, and can well afford to pay, more to those who make their catalogues, their pictures and descriptions than to the working men and laborers who manufacture the goods they sell. The cardinal principle of their business is to determine a price and description which will be most attractive to the purchaser. They then figure to produce an article which barely fits within the letter of their circular, and at as low a cost as possible, so as to bring to themselves the greatest margin of profit. You who thus purchase these goods sacrifice your honor and patriotism at the shrine of money. You have robbed your wife and children of part of their society and education for the sake of a few pennies.

You are, after all, an American, says the Newcomerstown (O.) News; you believe in American institutions; you decry anarchy and strive in the main to uphold American ideas. Why not seek to to promote local home trade? Why not unite with your fellow men to defeat the seeming irresistible progress of this monopoly? Your neighbors are doing so; you, at least, will not be behind them. Perhaps it may be said of Smith, or Brown, or Jones down the road that they are miserly and close and will not join in anything for the public good, but you will not allow the same to be said of you. You desire to be always in the fore in any movement which will better your town or neighborhood. When you realize what this movement means you will certainly be one of the first to give it your support.

ORDERING AN AX BY MAIL

How the Hardware Merchant Illustrated the Disadvantages of Trading Away From Home.

"A rather amusing story is told of a man who went into a hardware store in a neighboring town and wished to purchase an ax," says an exchange. "Being shown the article and informed that the price was $1.10, he said, 'Why, I can get the same kind of an ax from a mail-order house for 90 cents.' 'Very well,' said the hardware man, 'I'll give it to you for the same price provided that you will do the same by me as you will do with it.' 'All right,' replied the customer as he handed over a dollar bill, the merchant giving him ten cents in change. 'Now,' said the hardware man, 'I want 25 cents more to pay express charges,' which the customer gave him. 'How much did your ax cost you? 'One dollar and fifteen cents,' the man answered. 'Very good. Now give me five cents more for money order fees and postage,' which the customer had to hand over. 'Now how much did your ax cost you?' 'One dollar and twenty cents,' said the purchaser. 'Not so cheap after all,' said the merchant, whereupon he picked up the ax, put it back on the shelf and told the customer to call for it in ten days as that would be as soon as he could get it if he had ordered it from the mail order house."

Would Make Their Own Iron.

A recent report issued by the department of mines, Canada, draws attention to the possibilities of establishing a local iron industry on the coast of British Columbia. At present the cost of transportation of manufactured iron from Great Britain and elsewhere is very heavy, and for some time past the question of local production has been often discussed. The report referred to states that although the quantity of ore in sight cannot be set down, good material, consisting largely of magnetites, is certainly available, while there is an abundant supply of fuel and fluxes at present in existence, and water transport is largely available. the estimated cost of producing a ton of iron is given as $16, and the approximate cost at present of Eglinton No. 1 delivered at the works, Victoria, as $24 to $28 a ton.

Buy From Those Who Advertise.

When a store advertises it shows that it values your trade enough to ask for it; your convenience is considered to the extent of making it easy for you to know what is offered in needed goods; the store shows its willingness to go on record in its statements about its stock and service; the advertising of an article as being of a certain quality, and at a stated price is, in a sense, a contract between the seller and the prospective buyer; the prices of advertised goods must be so low that competition cannot meet them; advertising increases sales, enabling the store to accept smaller profits. These are some of the reasons why you should buy from stores that advertise. There are other reasons, and although not stated, you profit by them.

Don't Knock.

Nothing is gained by knocking your competitor. The blows return as boomerangs upon your own head.

A PACKAGE MAILED FREE ON REQUEST OF

MUNYON'S PAW-PAW PILLS

The best Stomach and Liver Pills known and a positive and speedy cure for Constipation, Indigestion, Jaundice, Biliousness, Sour Stomach, Headache, and all ailments arising from a disordered stomach or sluggish liver. They contain in concentrated form all the virtues and values of Munyon's Paw-Paw Tonic and are made from the juice of the Paw-Paw fruit. I unhesitatingly recommend these pills as being the best laxative and cathartic ever compounded. Send us a postal or letter requesting a free package of Munyon's Celebrated Paw-Paw Laxative Pills, and we will mail same free of charge. MUNYON'S HOMOEOPATHIC HOME REMEDY CO., 53d and Jefferson Sts., Philadelphia, Pa.

FOR THE FARMER

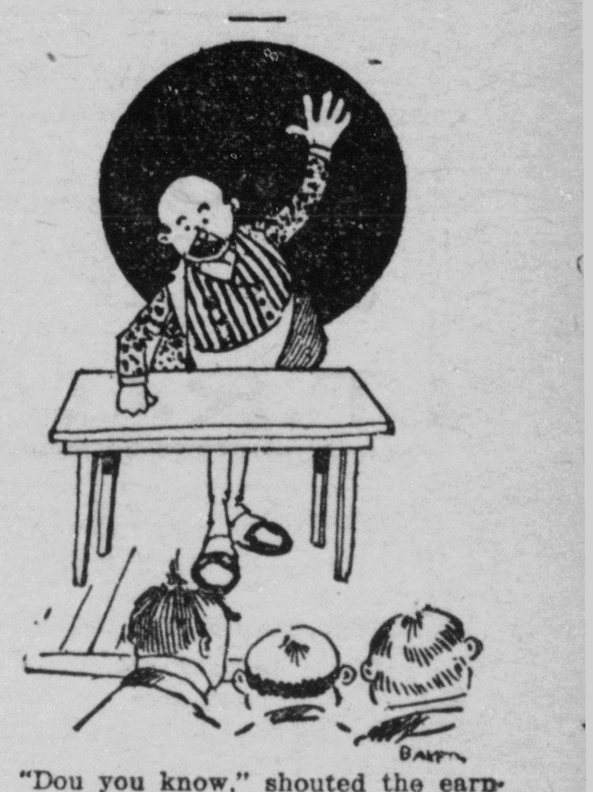
WHO FARMS WITH HIS HEAD as well as his hands, we have issued a booklet, in colors, telling all about this 20 lb. tool that has the lifting power of 20 hired men. It will lift your loaded wagons—trucks—threshing machines—portable engines—heavy farm machinery, etc. Ask your dealer or write us and learn what a few dollars can do.

BARTH MFG. CO., 49 L. St., Milwaukee, Wis.

THE Barth JACK

WELL IMPROVED FARMS for sale, as good as the best in Iowa and Illinois at half price. Advancing rapidly. Come and see them. Write for information. Live agents wanted. Green & Hyde, Pipestone, Minn.

ONE THING CERTAIN.



"Dou you know," shouted the earnest orator, "what to do to the trust?"

"No, but I know blame well what they're doing to us!" said a man in the front row.

The Stomach Hold.

Col. H. N. Renouf, at the "Old Guard" banquet at Delmonico's, emphasized the importance to an army of a good commissariat.

"You have perhaps heard," he said, "of the company of privates that a patriotic lady entertained one Memorial day to dinner.

"It was a good dinner, and at its end a pretty maid servant entered with a superb dessert.

"'Dessert, sergeant?' she said to the stalwart young soldier at the head of the table.

"'Desert?' the sergeant answered. 'When I can get eats like this for nothin'? Nixie! Not me!'"

Confused Impressions.

"Of course, you know the story of William Tell," said the serious citizen.

"To tell you the truth," replied Mr. Cumrox, "I'm not clear about him. I can't exactly remember whether he was a great marksman or a famous opera singer."

HARD TO PLEASE
Regarding the Morning Cup.

"Oh how hard it was to part with coffee, but the continued trouble with constipation and belching was such that I finally brought myself to leave it off.

"Then the question was, what should we use for the morning drink? Tea was worse for us than coffee; chocolate and cocoa were soon tired of; milk was not liked very well, and hot water we could not endure.

"About two years ago we struck upon Postum and have never been without it since.

"We have seven children. Our baby now eighteen months old would not take milk, so we tried Postum and found she liked it and it agreed with her perfectly. She is today, and has been, one of the healthiest babies in the State.

"I use about two-thirds Postum and one-third milk and a teaspoon of sugar, and put it into her bottle. If you could have seen her eyes sparkle and hear her say "good" today when I gave it to her, you would believe me that she likes it.

"If I was matron of an infants' home, every child would be raised on Postum. Many of my friends say, 'You are looking so well!' I reply, 'I am well: I drink Postum. I have no more trouble with constipation, and know that I owe my good health to God and Postum.'

"I am writing this letter because I want to tell you how much good Postum has done us, but if you knew how I shrink from publicity, you would not publish this letter, at least not over my name."

Read the little book, "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

When the Princess Chooses

By NELLIE CRAVEY GILMORE

The "Princess" breathed a sigh of relief. Their escape had been nothing short of miraculous, for the exquisite car was crippled hopelessly. The half hour that had elapsed since the accident had been an interval of palpitant excitement; but now the tension of the girl's nerves was relaxing, and some of the banished color had flowed back to her cheeks. She began to pace up and down in the twilight, her unfailing poise adjusting itself readily to the exigencies of the situation.

Sudden the indistinct blur of a far-off, but unmistakable, sound broke the silence; a moment more, and the musical hum of rubber-tired wheels echoed from the high clay road to the left. The "Princess" halted and stood alert.

"Dear me, Henry, I thought you would never—Oh!" The girl's hand dropped swiftly to her side; she started back as the light from the machine flashed squarely into the man's face. "You!" she cried, with a breathless heart-beat.

"Barbara!" The stranger looked at her for the first time, and there was radiant recognition in his eyes. Then recollection, coming upon its heels, he calmed himself and said: "So it is you."

"Yes, Jack; it is I."

The "Princess' spoke lightly enough, though, under cover of the dark, the blood was rushing into her cheeks.

"A decidedly unexpected meeting," the other remarked in a tone that instantly betrayed the effort to be casual, "when we thought we never would lay eyes on each other again," he could not help adding.

The "Princess" spoke lightly enough, in a bewildered way, her eyes teeming with unspoken questions. "I certainly never expected to see you here," she answered, after an indescribable pause. "Oh, Jack, Jack, Jack!" she broke out, wretchedly, "why did you do it? Why did you come—after all?" She turned from him with a despairing gesture and sobbed in her hands.

He looked at her uncomprehendingly for a moment, holding himself in by a powerful effort. When he had controlled himself sufficiently, he said: "I did not dream that I should ever see you again, Princess."

After a little, the girl turned toward him slowly, her red lips compressed. "Of course," she replied, with a little wounded catch in her voice, "I—I am very silly, Jack. Please don't pay any attention to what I have said."

The other bowed in silence and presently he said: "'It is growing late, 'Princess;' I am afraid you have met with something of a mishap. Your companion—"

"My brother was with me; our escape was Providential—you can judge by the appearance of the car over there. He left me almost two hours ago to go in search of assistance, and I very much fear that he has lost his way."

"Then you'd better let me take you on, as his return is very indefinite. We are fully 20 miles from civilization, and—"

The "Princess" interrupted him with a little startled exclamation. "But—but I couldn't leave like this! He wouldn't know—understand. I think perhaps I'd better wait, besides, suppose something should have happened to—"

"No danger of that, and no danger of his returning before morning, if I'm not a very poor guesser. He's safe enough in this part of the country, but he'll find it hard work getting help. The only thing to do is to go on, and send back here to meet him. We can leave a message with the automobile."

The "Princess" darted a curious glance into the man's face. "How do you know so much about the country here?" she asked pointedly. "A year ago you had not been out of America for 20 years."

"It doesn't take the tenth part of that time to become familiar with the world in which one lives—the particular world," he answered quietly.

"In which one lives!" The "Princess" spoke sharply, her hand going involuntarily to her side to still a sudden heart-beat. "I—I don't understand," she went on wonderingly. "Why are you here?"

"At present," he said quietly, "as chauffeur to the duke of Reverly."

The "Princess" turned white. "The duke of Reverly!" she gasped, putting out one hand in a blind fashion, as if to steady herself against something.

The chauffeur gave no sign of having noticed her excitement, and she collected herself immediately and looked him earnestly in the eyes. "I want you te tell me the truth, Jack," she pleaded. "Did you follow me—to England, for the purpose of finding out who I—"

"Follow you! Oh, hardly. Not after that last night when you made me know—when I made myself know—that just an ordinary man must never dare lift his eyes to—to a princess." He spoke passionately, with a keen touch of bitterness. "Circumstances over which I have not the slightest control are responsible for my presence here," he said more calmly.

For several minutes, silence held them both. The "Princess" was the first to break it. "Jack," she began, a trifle uneasily, "there is something I must ask you—something I want you to do, something you must do. Promise me." The glance she lifted to him was full of anxiety, almost alarm.

The face of the man flamed a dull red, but he disciplined his voice as he said: "I will do anything in the world for you—you know that."

"Then leave the duke of Reverly," she besought him, "at once."

"And may I ask you one question, Princess, in return?"

She nodded.

"Why do you wish me to do this?"

The girl was silent for the half of a minute. Her face crimsoned slowly; then paled. "Because," she answered, choking down a sob, "in three months' time it is decreed that I become his—wife."

The chauffeur regarded her mechanically for a few seconds. "Do you love him, Barbara," he asked abruptly, "this—gentleman?"

The "Princess" laughed in a grating little fashion that did not in the least belong to her.

"I've just a bit of a right to the question, haven't I, Princess, at the—last?"

"Love him!" she cried, "why—why I've never even looked upon him!"

"And yet he is willing to accept you under those conditions."

"Oh, it is all arranged for us. Our forefathers were kind enough to put themselves to that trouble. Over here, we mortals are spared the necessity of attending to our own—love affairs."

The man was grave for a moment. Presently he said: "I happen to know the duke very well indeed, as a man, and I do not believe he would let you marry him without the one great essential. Right now, he is on his way to Lorrimer house to—"

"I know," she cut in sharply, "but it is no use. I shall never marry him if that is how he feels, for I shall lack the 'one essential' for all time."

"The duke is different from lots of men of his class, Barbara. As late as six months ago, he never dreamed that fate would conspire to place a coronet on his head; and therefore, he has been little spoiled by pride of position."

The "Princess" looked up quickly. "I—don't understand. His is an old family, with a famous pedigree—"

"There is quite an interesting bit of romance connected with the new duke's inheritance of the title. It came to light only recently that Robert, fourth duke of Reverly, had secretly married a beautiful American girl, concealing his identity even from her during the short time she lived—18 months. He returned to New York from a visit home, to find his wife buried and the child vanished. It took 30 years to find the missing heir."

The "Princess" sighed deeply. "Nothing can matter now," she interposed, drearily. "Ah, it was a hapless day that inspired my adventuresome visit to America! If only I had been the simple little girl you first thought me, instead—instead—"

"Instead of a princess," he supplemented wistfully.

"Not exactly a princess," she smiled, "although you would have it so. But—" She paused, at a sudden loss for words.

The chauffeur waited a second, then pulled out his watch and studied its face intently. "It is late, Princess. We had better start!"

The girl hesitated a little, then without a word, she moved toward the big scarlet car that belonged to the duke of Reverly. Somehow, her foot caught in a tangled bit of grass and she tripped. The chauffeur caught her in his arms. For a moment he held her close, so close that he could feel the quick throbbing of her heart against his own; the tremulous rush of her warm breath against his cheek. The touch of her, helpless in his embrace, thrilled—intoxicated him, swept away the last vestige of self-control, and he covered her eyes, her hair, her lips, with kisses. "In spite of all, you do care, you do!" he cried fiercely, as she struggled an instant, then yielded herself to his caresses.

The Princess" opened her eyes at last and met the man's own. "I care so much," she whispered, "that I shall never, never marry the duke of Reverly."

The chauffeur released her reluctantly, and for a moment held her from him with his eyes buried in hers. "It will mean the giving up of a coronet, Princess. Remember the risk you are running when you choose me; obscurity and checkered life—"

A row of soft, pink finger-tips stopped the words on his lips.

"A coronet for—a crown," she breathed. "Jack! What is there for a woman to risk—when she becomes the wife of—her king?"

The chauffeur bent and touched her forehead reverently with his lips. Afterward, he drew from his pocket a card and scribbled a few hasty lir across the back of it. This he fastened to the forward cushion of the wrecked auto, and assisted the "Princess" into the duke's car.

Several hours later, when the exasperated Lord Henry returned from his fruitless quest, he chanced upon the following:

"Dear Boy:

"I picked your sister up safe and sound. We are on our way to Lorrimer house. Will send the car back at once.

"In haste, REVERLY."

Millinery for All

SO MANY girls are trying their hands upon hat making at home that a few examples of those hats which are likely to be most successful in the hands of the amateur, are interesting just now. These are the hats made of embroidery or lace or Swiss and batiste which have come to be a staple for midsummer, and are known as "lingerie" hats. New models this year show many fabrics which have not been used heretofore. Fine dimities, lawns and mills, in fact any sheer, pretty midsummer material, such as are used for midsummer gowns, is considered available for the lingerie hat. The prettiest models show combinations of all-over embroidery and the materials I have mentioned.

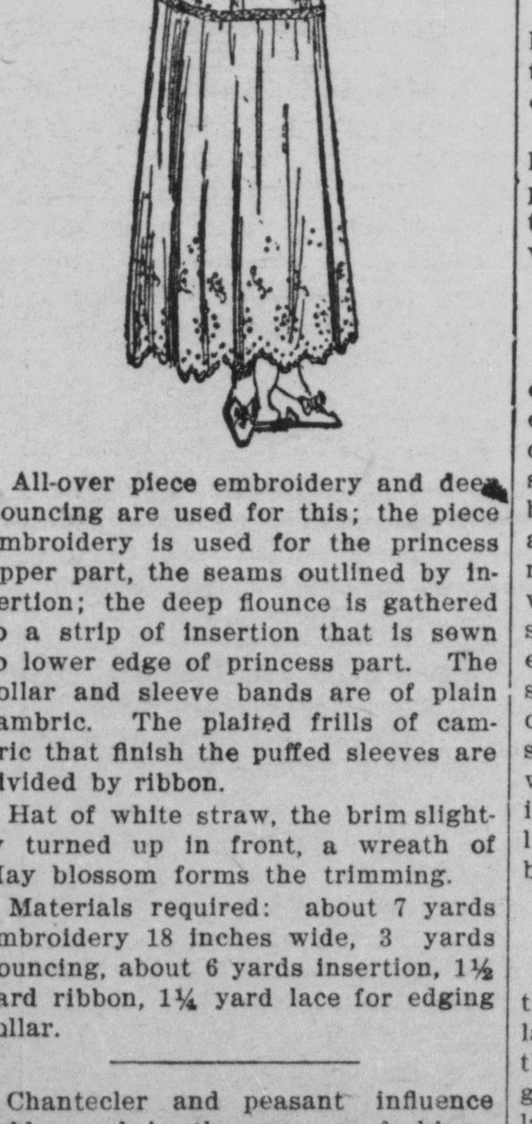
The safest designs for the amateur are those made of edgings of lace or embroidery, either wide or narrow. All the hats are made over wire frames which are first covered with very sheer mull or with chiffon. This first covering is either shirred over the frame or made into a fitted casing for the brim and laid smoothly over the crown. A scant ruffle of wide edging is laid about the brim falling over the edge about the depth of the scallop. In such a hat the crown is made by sewing two rows of edging together and making a small puffed crown of them. A band and bow of wide ribbon and a cluster of familiar garden flowers finishes the hat, which is quite as satisfactory when made at home as when made elsewhere.

If narrow edging, of lace or embroidery, is used it is sewed row on row and quite often the under brim is faced with scant ruffles sewed in the same way. Very sheer batiste or other embroidery is often laid in a full double ruffle over the brim, for girlish wearers.

The lingerie hat, by the way, is worn by maid and matron alike. It has been called the "baby" hat because it was first made for little girls when they graduated out of bonnets and took on the dignity of hats built on a frame. It is durable and beautiful and may be taken apart and the materials laundered. Study the lingerie hat for, like the lingerie waist, it has come to stay.

JULIA BOTTOMLEY.

PRETTY IDEA FOR DRESS



All-over piece embroidery and deep flouncing are used for this; the piece embroidery is used for the princess upper part, the seams outlined by insertion; the deep flounce is gathered to a strip of insertion that is sewn to lower edge of princess part. The collar and sleeve bands are of plain cambric. The plaited frills of cambric that finish the puffed sleeves are divided by ribbon.

Hat of white straw, the brim slightly turned up in front, a wreath of May blossom forms the trimming.

Materials required: about 7 yards embroidery 18 inches wide, 3 yards flouncing, about 6 yards insertion, 1½ yard ribbon, 1¼ yard lace for edging collar.

Chantecler and peasant influence holds good in the summer fashions, both in color and line.

Persian patterns are seen in cotton and silk crepes; sometimes they form the entire garment.

WEAR HAT IN HOT WEATHER

Important for the Girl Who Has a Dislike for Hair of Different Shades.

Do you want streaked hair of 17 different shades when next autumn comes around?

If you do not you must make up your mind to wear a hat during the summer.

A bother, you say? Of course. Did you ever know anything connected with keeping fresh that wasn't a bother?

And it is not half as hard as spending time and money later getting over the effects of sunburnt hair.

Too strong a dose of sun acts on the hair by drying natural oils in the scalp and then burning just as a hot flatiron scorches linen.

If it is impossible for you to wear a hat, oil must be rubbed regularly into the scalp to counteract this drying effect.

Remember that the most beautiful hair in the world comes from the peasant women of Britany, who keep their heads covered with their little white caps.

A Summer Coat.

A simple but beautiful coat for wear over a lingerie gown in the summer evenings is of black chiffon, cut three-quarter length and slashed at the sides, the slashings being connected by taffeta silk tabs. The half sleeves are slashed and caught in the same manner, and in front—the neck is cut very low—the only fastening is a tassel of silver cord. All the edges are embroidered in a wave design in the silver. The chiffon may be mounted over light taffeta silk, and net may be substituted as the coat material. This wrap may sound difficult to make, but it is not so; and with the help of a lucky remnant or two the expense will be slight.

Irish Lace Collars.

With the return of warm weather the fashion has swerved back to Irish lace collars. We will wear more of them this summer than for years. The girl in her new suit has mostly Irish lace around the neck. For this reason she wears a four-inch Irish lace collar around her coat and a four or six inch one around her blouse, which is collarless. This collar dips down for an inch in front and is finished with a plaited jabot of Irish lace and linen.

The KITCHEN CABINET

THROUGH ENVY, through malice, through hating,
Against the world, early and late,
No jot of our courage abating,
Our part is to work and to wait."
—Alice Cary.

Early Rising.

The early risers are the ones who accomplish things in the world. To be up in the quiet, two hours before the stir and bustle of the day, gives one time to get well started for the day's work. For those who love nature, this season of the year is the time of all to get out and enjoy the trees and hills if one has them, or the sunrise and clouds, for those are the possession of us all.

We cannot all be as ambitious as the early rising Bridget who was up so early that she had all the work done and the beds made before the family were up; but with even a few minutes a day in the quiet of the uninterrupted morning when one's mind is fresh and rested from sleep problems are easier to work out.

It is said of Victor Hugo that his greatest novels were written in just a few minutes each day before breakfast.

It is amazing the amount of work that may be accomplished in a few moments of concentrated thought. If we wish to do anything very much we will find time to do it. The piece of sewing, the letters that should be written and many things about the house can be done without disturbing the other members who have not yet risen.

There are many things about cooking and baking that take much time that may be prepared before hand. Pastry is much better to be made and chilled before baking. One may prepare the flour, butter and lard with the salt, put into the ice chest and take enough for a crust, adding the water; this will keep indefinitely if kept cold.

Such step savers take time to get ready, but save time when it is often very pressing. Fruit may be prepared for the day, vegetables got ready, the cold dessert made and many things which may lighten the day's labor and thus make a smooth running, unhurried home.

Put in the hook, sew on that button, hem that frayed skirt before putting the clothes away, then they will be ready to put on. One is apt to put a garment away without attending to the bit of mending and forget it until it is wanted to wear. Constant vigilance is the price of being always neat and in order, but it is a price worth paying.

Nellie Maxwell.

The KITCHEN CABINET

HAVE EASE, have health,
And spirits light as air,
And more than wisdom, more than wealth,
A merry heart that laughs at care."

Reminders for the Housekeeper.

Fish may be scalded much easier by first dipping them in boiling water.

A tablespoonful of turpentine boiled with the clothes will add greatly to the whitening process.

A good agency for keeping the air of the cellar sweet and wholesome is white wash made of good lime and water. Adding glue to it is only a damage, as it furnishes an organic matter which putrifies and is most unpleasant.

Charcoal is recommended as an absorber of gases in the milk room or refrigerator. Keep it there continually in a powdered state, renewing occasionally, especially in hot weather when unwholesome odors are likely to affect milk and butter.

Clear boiling water poured through tea stains will remove them.

Some Uses for Salt.

Salt water is a splendid gargle for sore throat. Salt water snuffed into the nose is a great relief for cold, catarrh and often for a headache.

Dry salt or salt water rubbed into the roots of the hair three times a week will stop falling hair.

If the chimney is burning out on a windy day throw in a handful of salt.

Salt sprinkled on carpets brighten them and keep down the dust when sweeping.

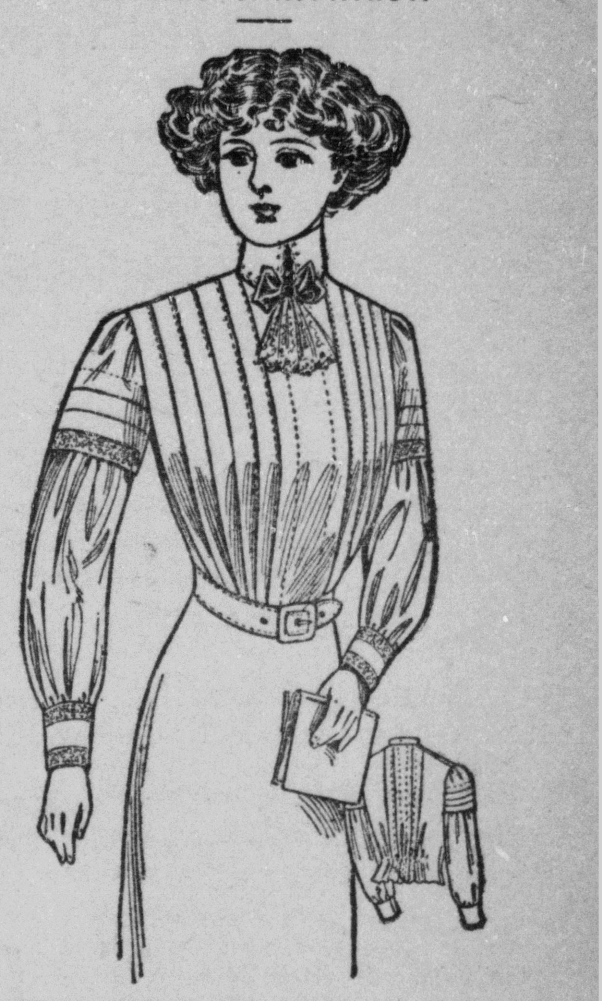
Nellie Maxwell.

Hominy Muffins.

Mix a cupful of warm boiled hominy cooked to the proper consistency for the breakfast table with one tablespoonful of melted butter, a saltspoonful of salt and one cupful of milk. Add this mixture gradually to a cupful and a half of flour in which has been sifted two teaspoonfuls of baking powder. Lastly add two well-beaten eggs and bake in hot buttered muffin pans.

Practical Fashions

LADIES' SHIRTWAIST.



Paris Pattern No. 2962, All Seams Allowed.—Closing at the left side of the front under the wide panel effect and made up in nile green persian lawn, this is a dainty little model. The first three tucks either side of the front are stitched their entire length, while the others are stitched to nearly the bust line. The caps to the new-fashioned sleeves are also tucked and trimmed and insertions of embroidery, similar embroidery trimming the cuffs. The pattern is in 7 sizes—32 to 44 inches bust measure. For 36 bust the waist requires 5¼ yards of material 20 inches wide, 4½ yards 24 inches wide, 4 yards 27 inches wide, 3⅛ yards 36 inches wide, or 2⅝ yards 42 inches wide; 2½ yards of insertion.

To procure this pattern send 10 cents to "Pattern Department," of this paper. Write name and address plainly, and be sure to give size and number of pattern.

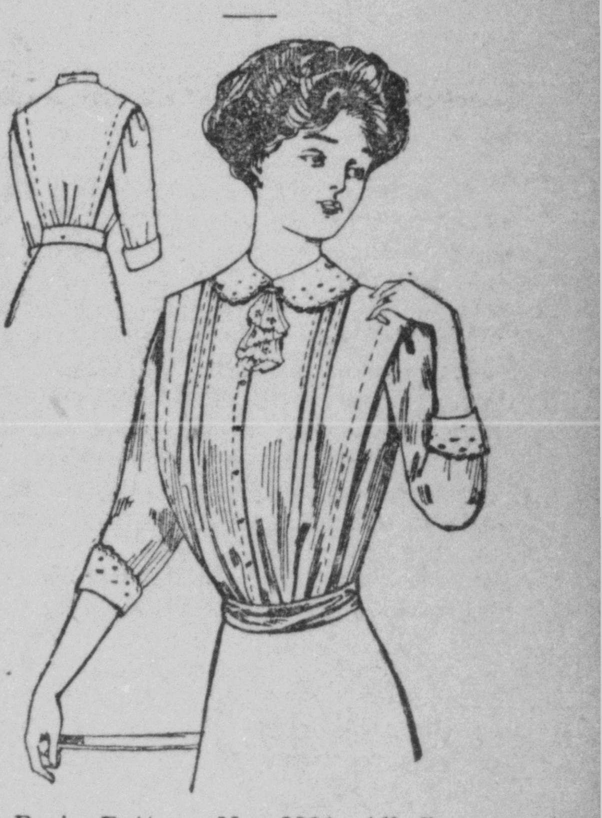
LADIES' TUCKED SHIRTWAIST.



Paris Pattern No. 3321, All Seams Allowed.—There are few women who can pass by a counter where remnants of pretty wash materials are exposed for sale without the desire to buy one or more of them. Often they are stopped from doing so by the thought that they canont find a pattern simple enough for a cheap bit of gingham and an hour's time. We have removed this objection by supplying a model which is not only very simple, but very pretty as well. The waist is cut on what is known as the Gibson style. It has the deep tucks at the shoulder, which overlap the seam of the sleeve and are stitched down for their entire length, in the front and also in the back. The pattern is in 6 sizes—32 to 42 inches bust measure. Size 36 bust requires 2½ yards of material 36 inches wide.

To procure this pattern send 10 cents to "Pattern Department," of this paper. Write name and address plainly, and be sure to give size and number of pattern.

MY DOCTOR MIGHTY FINE

Mrs. Hattie Cain of Carrsville Thinks all the More of Her Doctor Since He Advised Her to Take Cardui.

Carrsville, Ky.—"My doctor," writes Mrs. Hattie Cain, "who advised me to take Cardui, for my troubles, is a mighty fine doctor, and I say God bless Cardui and the people who make it.

"Before I took Cardui, I suffered with female troubles for sixteen years. I would have to send for a doctor every three month, and oh! how dreadfully I suffered!

"I would cramp and have convulsions and it looked like I would die. At last I took Cardui and oh! what a surprise! I found it was the medicine for me!

"From the first bottle, I began to mend and now I am well, can do more work, can walk and go where I please and it don't hurt me, and I owe it all to Cardui."

Cardui helps sick women back to health. It has been doing this for over 50 years. It is not a laxative, or a heart or kidney medicine—it is a woman's medicine.

If you are a woman, try it.

N. B.—*Write to:* Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for *Special Instructions*, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request.

INDIANS ANXIOUS FOR SETTLEMENT

What They Want Is To Finger The Cash.

TERMS NO OBJECT TO THEM

Congressional Inquiry Brings Out Fact That Poor Lo Had an Idea He Had to Employ Somebody to Engage Uncle Sam's Attention, and the Cost of the Proceeding Was No Object if Dispatch Was Secured.

McAlester, Okla., Aug. 9.—At the hearing before the congressional committee to inquire into the contracts of J. F. McMurray with the Choctaw and Chickasaw Indians and the charges of attempted bribery made by Senator Gore, it was brought out that the Indians are anxious and willing to give 10 per cent or several times that proportion of what is coming to them for the purpose of having tribal affairs settled at an early date. Some of the Indians on the stand testified that they approached McMurray and solicited him to take up the work of hurrying a settlement.

W. G. Holleman, W. V. McClure, Jack Anderson and C. C. Choate, all Choctaws, testified that the Indians felt it was necessary to pay a fee to get what the government had been promising to them for so many years in the way of a settlement and that they were not particular about the percentage they paid if they could only get some returns.

The astounding feature of the proceedings locally was the testimony of D. C. McCurtain, son of Governor McCurtain, when he stated that he had an agreement with the firm of Mansfield, McMurray & Cornish that he was to have one-fourth of the fee they received and that the share thereof coming to him was $187,500. This was the first this was ever heard of here, although all the parties have resided in this city for many years.

W. G. Holleman testified that he was employed to secure contracts among the Indians, and that it did not require any argument to get their signatures, for they were willing to do anything to get a settlement.

Judge C. B. Stuart of this city, leading counsel for Governor Haskel in the town lot cases, was called by Senator Gore to show that he was not in the conference with Jake Hamon in Senator Gore's room at Washington, and when he said he had not been, Mr. Hamon interposed the statement that he had not so testified. This was admitted, and Judge Stuart then said he had seen Mr. Hamon in the hallway as he was entering the senator's room.

Congressman C. E. Creager was accused in the investigation of having sought money from J. F. McMurray after he had introduced a bill providing for the sale of Indian lands. The charge was made by Hamon, who in demanding the recall of Creager to the witness stand, declared Creager had made his pleas for money in the guise of loans and that he wished to cross-examine the witness. The bill Hamon referred to provided for the sale of the surface lands to private individuals, and for the sale of the mineral deposits to the government. Under the arrangement McMurray, with his contracts, it was asserted, would have obtained 10 per cent of the money paid by the government.

D. C. McCurtain retold of the bribe offered him by McMurray in the lobby of the Raleigh hotel in Washington, saying McMurray made the offer on the condition that he (McCurtain), as a delegate to the Choctaws, would withdraw his objection to the contract. McCurtain said he had been promised a fourth of a $750,000 fee that the firm of McMurray, Mansfield & Cornish was to get, but did not receive it, and he told them he thought they had acted shabbily.

Senator Gore said that he had nothing to say about the proceedings, except that the disclosures being made all tended to help largely in the early settlement of tribal affairs. He said further that he was losing $170 a day by not being able to keep his Chautauqua engagements.

Victim of Gasoline.

Hammond, Ind., Aug. 9.—Mrs. Thomas Johannson, aged forty, caught in a gasoline stove explosion, ran in a cloud of flames to her husband, who was working in the field some distance away. She collapsed before she reached him and died a few hours later.

WEATHER EVERYWHERE.

Observations of United States weather bureaus taken at 8 p m. yesterday follow:

	Temp.	Weather.

Indianapolis	77	Clear
Chicago	82	Cloudy
New Orleans	84	Cloudy
St. Louis	76	Cloudy
Washington	68	Cloudy
Philadelphia	68	Rain

Showers and slightly cooler; Wednesday generally fair.

They Have a Definite Purpose

Foley Kidney Pills give quick relief in cases of kidney and bladder ailments. Mrs. Rose Glaser Terre Haute, Ind., tells the result in her case "After suffering for many years from a serious case of kidney trouble and spending much money for so called cures, I found Foley Kidney Pills the only medicine that gave me a permanent cure. I am again able to be up and attend to my work. I shall never hesitate to recommend them."

Given Surprise.

Will Thias and family, south of the city, were given a surprise dinner Sunday by a number of relatives who came in about noon with well filled baskets. John H. Stewart and family, Mrs. Nancy Stewart and Fred Thias and family, of Seymour, and George McNiece and family and Mrs. Curt McNiece of Cortland, constituted the surprise party. The company spent a very pleasant day. Mr. Thias sold his farm some time ago and expects the last of this month to move to Daviess county.

What is Best for Indigestion?

Mr. A. Robinson of Drumquin, Ontario, has been troubled for years with indigestion, and recommends Chamberlain's Stomach and Liver Tablets as "the best medicine I ever used." If troubled with indigestion or constipation give them a trial. They are certain to prove beneficial. They are easy to take and pleasant in effect. Price, 25 cents. Samples free at Andrews-Schwenk Drug store

Hits Open Switch.

Passenger train No. 5 on the B. & O. S-W. ran into an open switch at Lawrenceville, Ill. this morning and it was necessary for the shop wrecker to go to the scene of the accident and make necessary repairs. Owing to the fact that the telegraph wires on the west end of the road were in trouble today but meager details of the accident could be learned.--Washington Democrat.

Granulated Sore Eyes Cured.

"For twenty years I suffered from a bad case of granulated sore eyes, says Martin Boyd of Henrietta, Ky. "In February, 1903, a gentleman asked me to try Chamberlain's Salve. I bought one box and used about two-thirds of it and my eyes have not given me any trouble since." This salve is for sale by Andrews-Schwenk Drug Co.

More Big Apples.

David Ross, living two miles southwest of Seymour, is the latest person to enter the contest for the largest apple raised in Jackson county. He has brought to the Republican office four large Maiden Blush apples, the largest of which weighs one pound and one ounce. They are fine specimens, and attract much attention in the Republican office window.

Foley Kidney Pills

Tonic in quality and action, quick in results. For backache, dizziness, nervousness, urinary irregularities and rheumatism.

New Mathematics Professor.

Acting President M. E. Crowell, of Franklin college, has announced that Professor Frederick H. Hodge, of Parsons college, Fairfield, Ia., has accepted the chair of mathematics, succeeding Rebecca J. Thompson, resigned. Professor Hodge has had wide experience as a teacher of mathematics.

Dysentery is a dangerous disease but can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has been successfully used in nine epidemics of dysentery. It has never been known to fail. It is equally valuable for children and adults, and when reduced with water and sweetened, it is pleasant to take. Sold by Andrews-Schwenk Drug Co.

May Settle Strike.

A conference is being held at Baltimore this week between the B. & O. officials and representatives of the striking machinists which is thought will result in a settlement of the strike. E. A. Hunt, of Washington, is present representing the strikers of that city.

In buying a cough medicine, don't be afraid to get Chamberlain's Cough Remedy. There is no danger from it, and relief is to follow. Especially recommended for coughs, colds and whooping cough. Sold by Andrews-Schwenk Drug Co.

Spiritualist Camp Meeting.

John Congdon, George Fredrick, James DeGolyer and wife, Herbert Durham and wife, John Van de Walle and W. J. Durham and wife expect to go this week and next to Chesterfield to attend the annual spiritualist camp meeting.

Beautiful women everywhere owe their matchless loveliness to the use of Hollister's Rocky Mountain Tea. Plain women made attractive by this great remedy. 35 cents, Tea or Tablets. Andrews-Schwenk Drug Co.

TRYING TO BOYCOTT THE COUNTRY STORE

Some one has sent my advertisements to Factories and Jobbers asking them to refuse to sell me Goods on the Grounds that I cut the Price.

Now I am not at all uneasy about not being able to buy all the Merchandise I want and will continue to sell more for $1.00 than you can buy anywhere.

Each week shows a gain in Sales.

You don't help pay the other fellow's bills here.
